

CITY OF HIGH POINT

NORTH CAROLINA

ANNUAL BUDGET

2013-2014

The City of High Point salutes its international corporate citizens who strengthen the city's economy and enhance its stature worldwide.

City of High Point

North Carolina

Annual Budget And Performance Objectives and Measures

Fiscal Year 2013-2014

*Presented to the
City Council on
May 20, 2013*

*Adopted in final form
by the City Council
on June __, 2013*

ABOUT THE COVER

A globally-connected community, High Point USA earns its nicknames as North Carolina's International City™ and Home Furnishings Capital of the World™. More than seventy internationally-headquartered companies have year-round facilities in High Point giving the city an impressive thirty-seven percent of all such foreign-based companies in its twelve county region. Additionally, the High Point Market – the world's largest home furnishings trade show – brings to town approximately 14,000 foreign guests each year. Those visitors represent more than 110 countries. Scores of international companies show their products twice each year at the High Point Market. Lastly, city government encourages foreign investment and works closely with both its internationally-owned companies and foreign clients considering opening operations in High Point.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of High Point
North Carolina**

For the Fiscal Year Beginning

July 1, 2012

Christopher P. Morrell

President

Jeffrey R. Egan

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of High Point, North Carolina for its annual budget for the fiscal year beginning July 1, 2012. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

VISION

“The single most livable, safe and prosperous community in America.”

MISSION

“The City will serve as the catalyst for bringing together the community’s human, economic and civic resources for the purpose of creating the single most livable, safe and prosperous community in America.”

INTRODUCTION

Contained in this document is the City of High Point Fiscal Year 2013-2014 Budget. In addition to the proposed budget, you will find the performance objectives for all of the City's departments. In fiscal year 2001-2002, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. Ten service areas from the City of High Point were included in the project. These were Residential Refuse Collection, Household Recycling, Yard Waste/Leaf Collection, Asphalt Maintenance and Repair, Police, Emergency Communications, Fire Services, Building Inspections, Fleet Maintenance and Human Resources. For the year 2006-2007 Water Services was added to the list of services. For the year 2011-2012, Sewer Services was added. This project provides comparable and reliable performance indicators from other municipalities in North Carolina. Elsewhere within the document, key performance measures have been indicated for some of the large departments in the City. This effort will continue to expand going forward in future documents.

The budget format was prepared to make it simple and easy to read. We have tried to prepare a document that contains the information necessary for the City Council and the citizens of High Point to understand the operations of the City and the resources and costs necessary to carry out its various missions for fiscal year 2013-2014. The book is divided into funds beginning with the General Fund. Budget summary information and the performance objectives and measures, as applicable, of each department are contained in these sections. The City's Five-Year Capital Improvement Program along with a description of each project is found in the Capital Improvement Program section.

The Analyses/Summaries section contains revenue and expense summaries, assumptions, charts, and other data pertinent to the preparation of this budget. Revenue information is presented first and expense summaries follow.

Additional summaries, charts and graphs, such as the various funds, Revenue and Expense Summaries, are found at the beginning of each fund's section. The Revenue and Expense Summaries are helpful to provide a consolidated picture of each fund's revenue and expense status.

A glossary of frequently used terms is found in the last section of the document to assist you in understanding the budget.

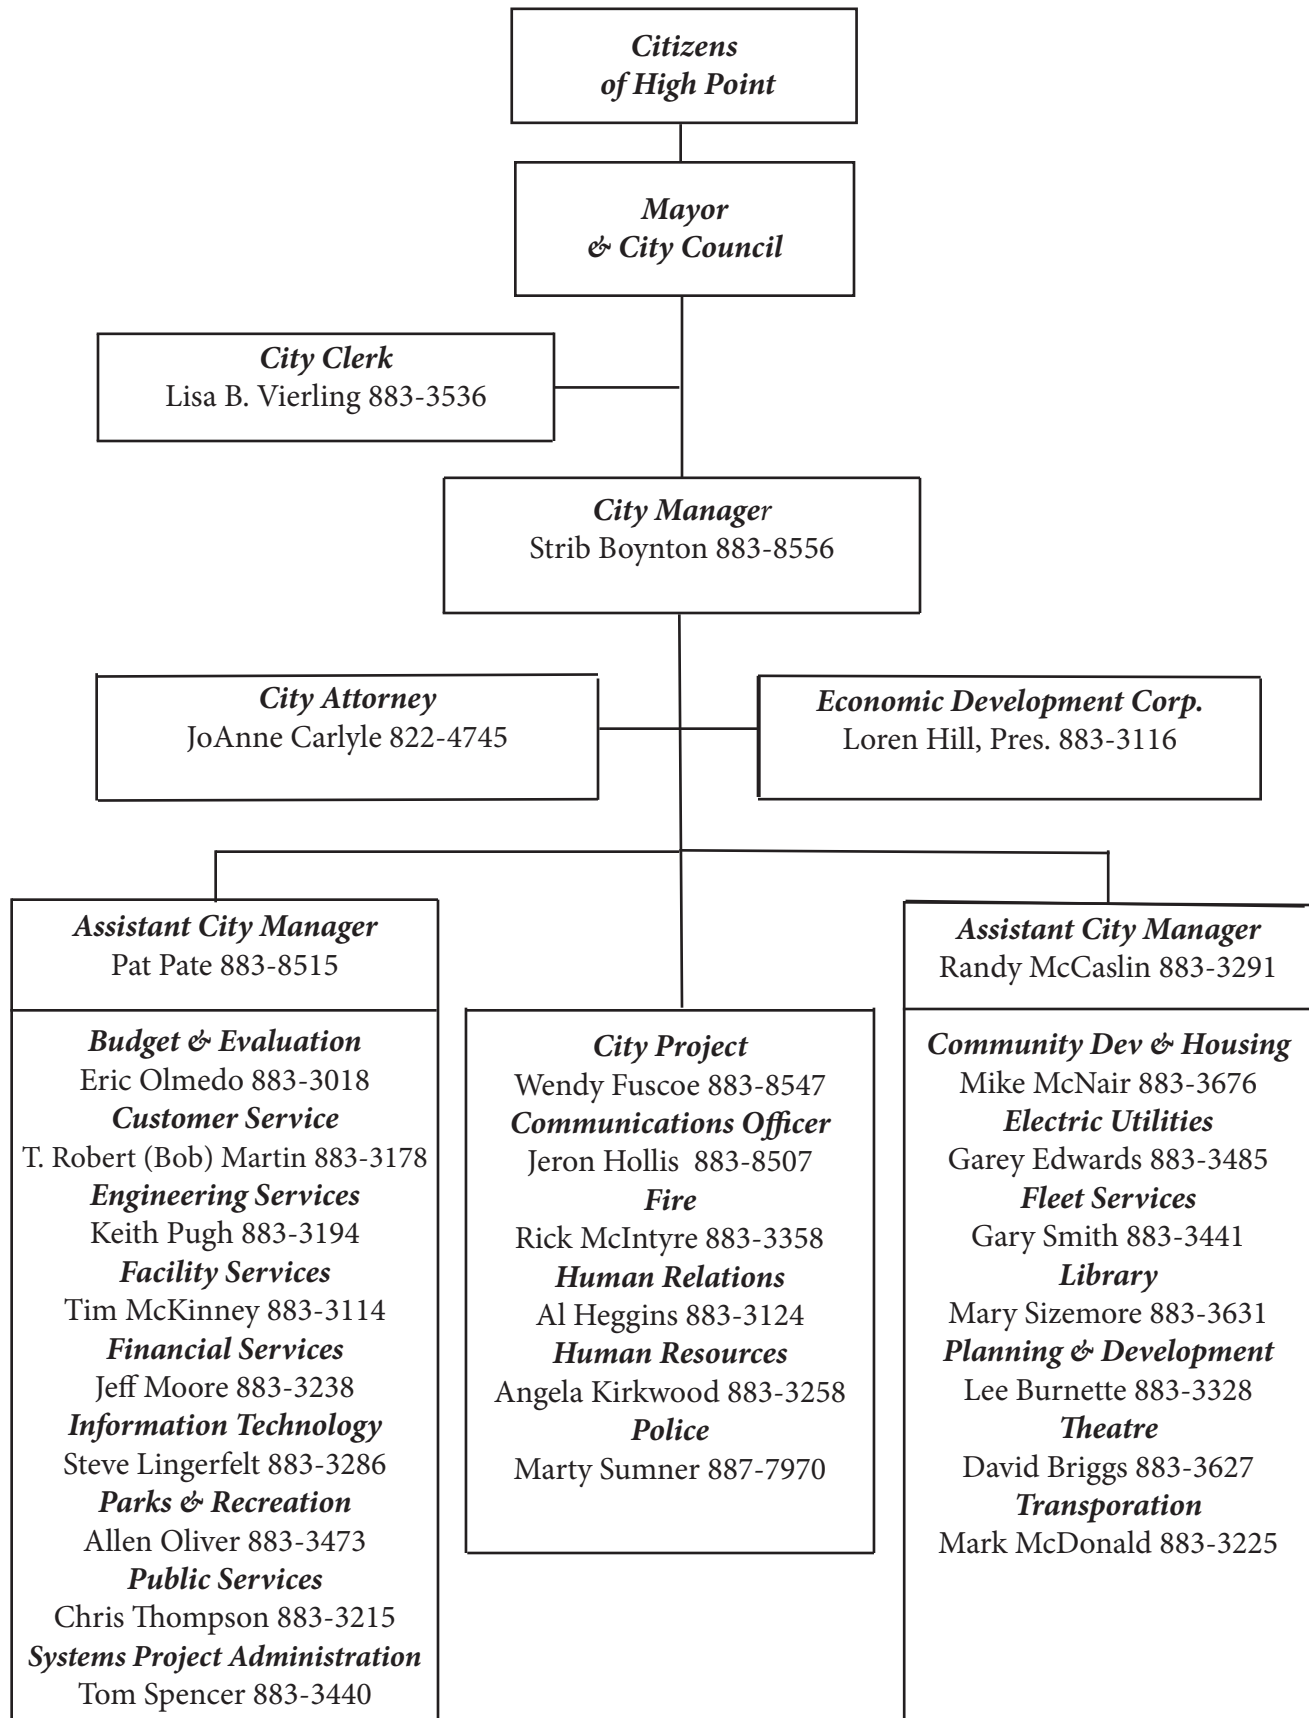

We hope that this book is presented in a fashion that will aid you in the location of specific information. Your comments and suggestions are greatly appreciated in helping us compile a document that serves your needs.

High Point USA: Central Location in North Carolina's Piedmont Triad Region

ABOUT HIGH POINT

High Point is a thriving city of over 100,000 residents situated along the rolling Piedmont crescent region of North Carolina. High Point lies in four counties, Guilford, Davidson, Forsyth and Randolph. With Greensboro and Winston-Salem, High Point anchors the Piedmont Triad region with a population of 1.6 million. It is the nation's 31st largest combined statistical area. Centrally positioned along the East Coast with easy access to several interstate highways and the Piedmont Triad International Airport, High Point is a great place to live and to do business.

Home of the semi-annual High Point Market, the largest wholesale finished goods home furnishings market in the world, High Point has a tremendous impact on the economy of the entire Piedmont Triad. An average of 75,000 retail home furnishings buyers, manufacturers sales representatives, interior designers, and news media attend each market held in April and October of each year. All 50 states and more than 110 foreign countries are represented at these markets. For the state, the annual economic impact is \$1.2 billion and over 13,000 jobs.

Following are some pertinent facts about the City of High Point.

BUDGET PREPARATION PROCESS

Preparation of the City of High Point's fiscal year budget is a process that involves the citizens of High Point, the High Point City Council, individual city departments, and the City Manager's budget team.

It is a process that begins in November with the distribution of personnel budget work papers to departments. These work papers present the current personnel complement, salary information, and forms for requests for next year funding. Departments submit their work to the Human Resources Department during December at which time they are reviewed with the department heads. Generally, new position requests are not included in the proposed budget but are submitted separately to the City Manager for consideration later in the budget process.

A budget kick off meeting is held by the City Manager during the first half of December. During this meeting, a preview of the economic forecast for the coming fiscal year is presented to department directors. General budget preparation instructions as well as immediate goals and directives are presented. Time is allowed for each department to present their views regarding operations in the new fiscal year and any potential problems, which could impact other departments.

Capital Budget Preparation

In November, departments begin preparing their Five-Year Capital Improvement Program. This process requires departments to submit financial forms for each project, detailing the description of the project, the projected begin and end dates, as well as how the project will be financed.

In mid-December, department directors submit the Five-Year Capital Improvement Program (CIP) requests to the Budget and Evaluation Division. Each department ranks their department projects by priority. The Budget and Evaluation Division prepares the CIP recommendations to be included in the proposed CIP plan. The Assistant City Managers, department directors, and the

budget team perform the next review of these requests. At this time, changes that best meet the City's needs as a whole are incorporated into the departments' requests. Upon completion of these reviews in January, the program is then presented to the City Manager for review at which time additions or reductions may be made as any new priorities are identified.

Operating Budget Preparation

At the City Council's discretion, a City Council/Management Team retreat is held in late January or February during which the City Council communicates their concerns and priorities for the upcoming year. The retreat for the 2013-2014 budget year was held February 8-9, 2013. The City Manager's staff presents an overview of the current budget year, preview of the year-end financial picture and major capital projects on the horizon. This important meeting provides valuable insight and feedback from Council members for the management team to use in developing the proposed budget.

The next major phase in the preparation of the budget occurs in January with the distribution of the revenue work papers. These work papers allow the departments to prepare revenue estimates for the current fiscal year and projections for the upcoming fiscal year. These estimates and projections are essential elements of the revenue and expenditure forecasts for the new fiscal year. During January-February, the Budget and Evaluation Division prepares the estimated fund balances for the current fiscal year based on the estimated revenue receipts and expenditures for the current fiscal year.

Also in mid-January, expenditure budget work papers are distributed to departments. Departments use these work papers to submit their operating budget requests for the new fiscal year. Both revenue and expense work papers are returned to the Budget and Evaluation Division in February.

Budget Preparation Process, continued

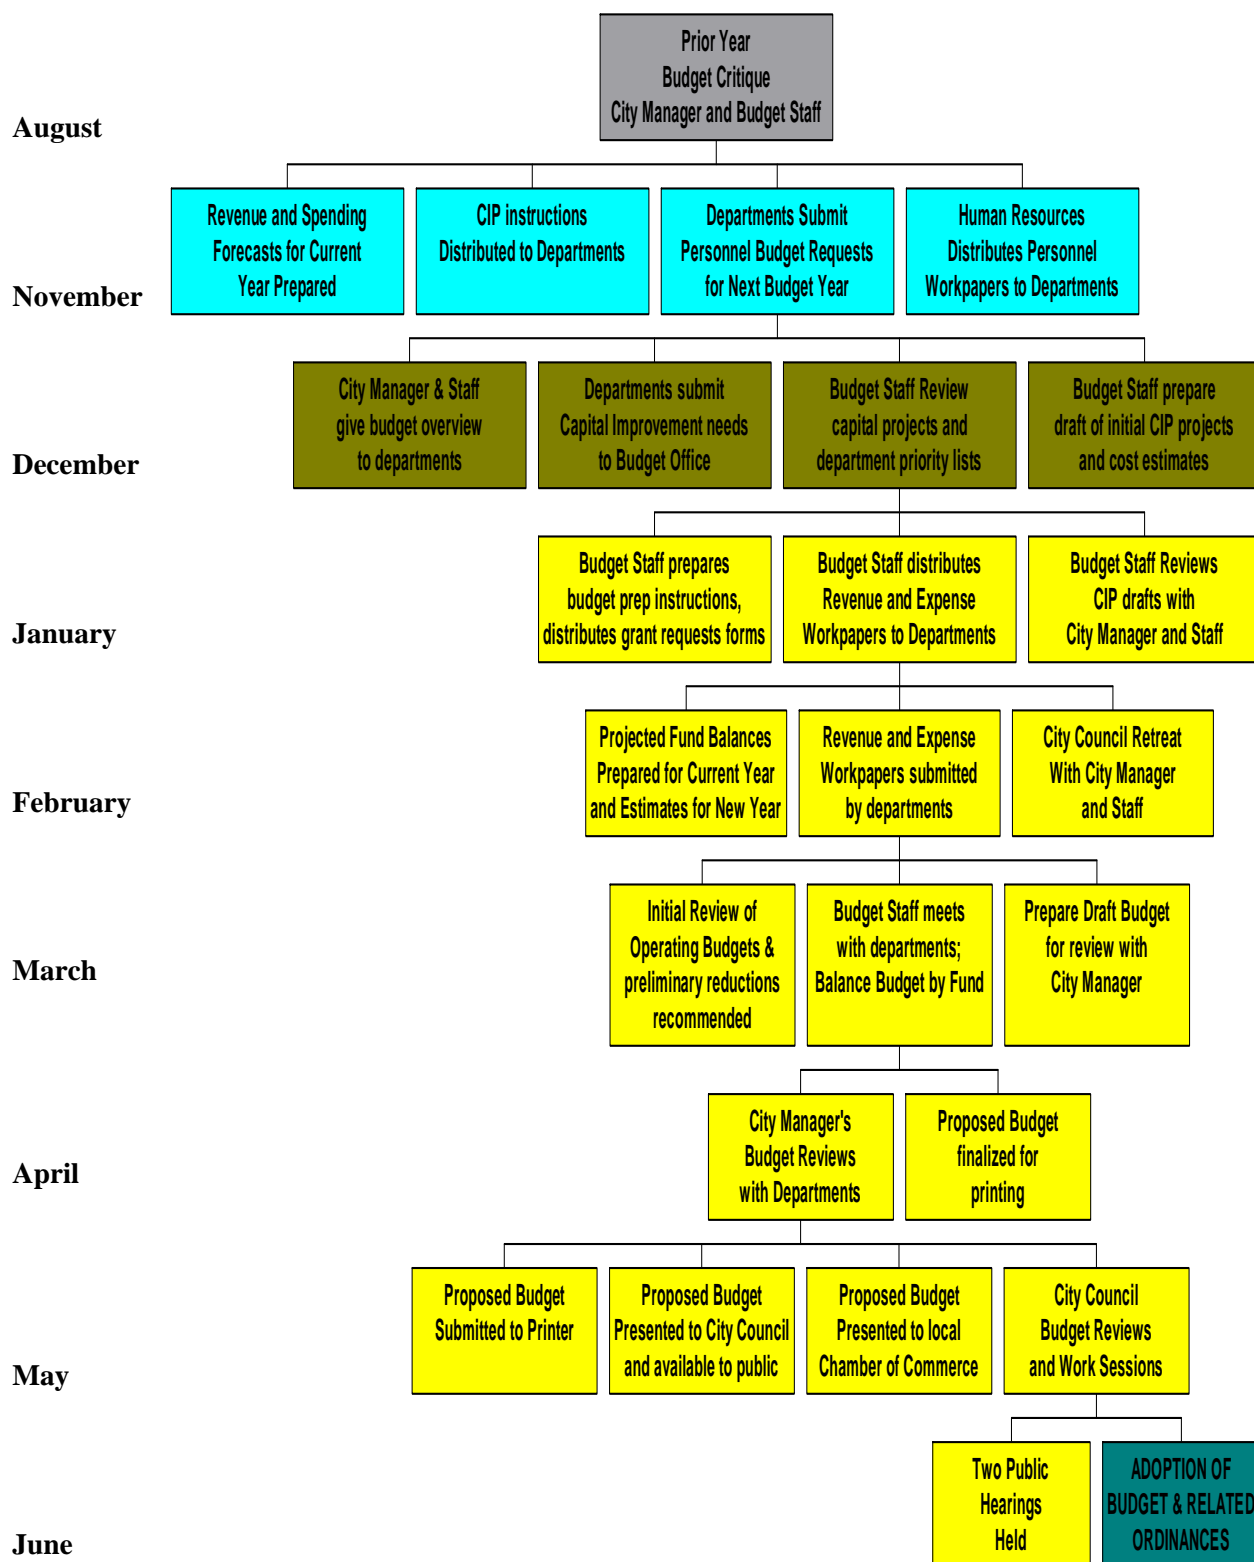

Budget review meetings are scheduled as necessary during March with department heads and the Budget and Evaluation Division to study their requests. The City Manager is given a briefing on any new programs that are being proposed, new position requests, as well as major increases in the budget requests. The Budget and Evaluation Division produces the initial recommended budget to be reviewed with the City Manager. The Manager makes any final revisions to the proposed budget along with the proposed tax rate and utility rates for the new fiscal year.

In May the City Manager's proposed budget is presented to the City Council, the press, and the public. The proposed budget is made available for public inspection in the office of the City Clerk, the Library, and the Budget and Evaluation office.

During May and sometimes early June, the City Council holds a series of budget study sessions in which intense study of the budget occurs. During these meetings the City Council reviews the budget and makes any necessary adjustments. North Carolina General Statutes require one public hearing be held for public comment on the proposed budget. In a concentrated attempt to give opportunity to the citizens of High Point, two Public hearings are scheduled by the City Council for public input on the budget. These hearings are usually conducted in June. The City Council formally adopts the budget at a regular City Council meeting on or prior to June 30.

The proposed budget is also posted on the City of High Point's website and can be accessed at www.highpointnc.gov.

BUDGET SCHEDULE AT-A-GLANCE

June 3, 2013	Public hearing at 5:30 p.m. as advertised
June 6, 2013	Public hearing at 9:00 a.m. as advertised, with budget work session to follow
June 17, 2013	Adoption of 2013-2014 annual budget and related ordinances at 5:30 p.m.

BUDGET DEVELOPMENT POLICIES

State Budget Statutes

The City of High Point annual budget shall be prepared in accordance with the General Statutes of the state of North Carolina section 159-8(a) that requires an annual balanced budget defined as follows: *The budget ordinance is balanced when the sum of estimated net revenues and appropriated fund balances is equal to appropriations.*

The City of High Point adheres to state statutes by strictly applying the following policies in the development of its annual operating budget. These policies provide the basis for decision-making and in continuing a tradition of financial stability in High Point's operation.

Budget Policy

1. The City of High Point shall prepare an annual budget appropriation document covering the twelve-month period beginning July 1 and ending June 30 of the following year.
2. Before April 30th of each year, each department head shall present budget requests and revenue estimates for the coming budget year.
3. The proposed budget document shall be presented to the City Council for consideration no later than June 1 with adoption of the approved ordinance by June 30.
4. One public hearing is mandated by North Carolina State General Statutes. The City of High Point schedules two public hearings to receive input on the development of the budget.
5. The City budget will be developed incorporating all programs and service levels as established by City Council and as required by all statutes.
6. Budgets shall be prepared at the department level and provide the basis for the City's financial management and operation. The adopted appropriations by

fund shall constitute the maximum expenditure authorization for that fund and may be amended only by action of the City Council.

Revenue Policy

1. Estimation of revenue receipts shall be realistic and attainable both in the determination of fund balance generation in the current fiscal year and in the estimated receipts for the following fiscal year. Where judgment is required, conservatism shall be the rule.
2. Amounts appropriated into fund balance shall not exceed the sum of cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts at the close of the fiscal year preceding the budget year.
3. Every effort shall be made to maintain a balance of 10% of the City's estimated expenditures in undesignated fund balance. Appropriations from unappropriated fund balance shall be made only at the direction of the City Council.
4. Water, sewer, and electric rates shall be set at an amount that will enable these funds to be self-supporting.
5. The practice of transferring from the Electric Fund to supplement the General Fund was eliminated beginning with the 2000-2001 budget; however, due to budget shortfalls, a one-time transfer was adopted for fiscal year 2010-2011. The proposed 2013-2014 budget does not include a transfer of electric funds.
6. One-time or special revenues shall not be used to finance ongoing City operations but rather be used for the funding of special projects.
7. An aggressive policy of seeking the collection of delinquent utility and license fee accounts will be maintained.

Debt Management Policy

The goal of the City's debt policy is to manage debt by maintaining a sound fiscal position and protecting the city's credit rating. Long-term debt shall only be used to finance those capital projects that cannot be financed with current revenues and will require strong financial administration.

When the City considers debt financing, analyses of the financial impact of short-term and long-term issuing of the debt is considered. Issuing long-term debt commits the City's revenues several years into the future, and may limit its flexibility to respond to changing service priorities, revenue inflows, or cost structures. For this reason, it must be determined that future citizens will receive benefit from the capital improvement that the debt will finance.

Bonds may be sold as authorized or by first issuing bond anticipation notes (BANs) to finance the bond projects. When BANs are issued such shall be retired by the issuance of the bonds historically within a period of one year.

The payment of debt service shall be developed on a schedule that provides even or level debt payments annually in order to prevent major swings from year to year

Legal Compliance for Debt Management

1. The issuance of all bonds for the purchase of or construction of major capital projects will be with the approval of the North Carolina Local Government Commission

2. In adherence to North Carolina General Statute 159-7, funds shall be appropriated to cover debt service before any other appropriation is authorized.

3. The legal debt margin of 8% of assessed valuation shall be maintained.

Capital Improvement Policy

1. The City shall prepare a Five-Year Capital Improvement Program (CIP) in conjunction with the annual operating budget. The first year of this program shall be presented for adoption. The subsequent four years shall be for information and planning purposes.

2. Capital expenditures included in the CIP are attributable to a specific fund (General, Water, Sewer, Electric, etc.) and will be financed from revenues assigned to that fund. Projects included in the CIP shall have a cost greater than \$15,000 and a useful life of at least ten years.

3. Capital acquisitions costing not less than \$5,000 and having a useful life of at least one year and which do not materially add to the value of existing assets shall be budgeted for in the operating budget of the department to which the asset is to be assigned. These acquisitions shall not represent major acquisitions that are budgeted for in the CIP. Vehicles for the City's fleet are not budgeted for in the CIP. First-year acquisition of vehicles is budgeted in the using department; subsequent replacement vehicles are managed through the City's Fleet Replacement Program.

4. Capital Project Ordinances (CPO) shall be established and adopted by the City Council separate from the regular operating budget ordinance and shall authorize the construction or acquisition of major capital that spans a period of time greater than one year to complete. The appropriation of the capital project ordinance budget shall remain in effect for the life of the project and not require reappropriation each fiscal year.

5. The expenditure of all bond-authorized projects will be controlled through the establishment of capital project ordinances.

BUDGET ORDINANCE AMENDMENT POLICY

North Carolina General Statute 159-8 states that each local government shall operate under an annual balanced budget ordinance.

The budget ordinance as adopted by the City Council may be amended in two ways:

- (1) Budget transfers within a fund authorized by the City Manager or
- (2) Appropriation increases or decreases authorized by the City Council including transfers, contributions, and reimbursements among funds.

The first procedure is authorized by Section 8 of the budget ordinance that states that the City Manager is authorized to approve transfers of appropriations within a given fund. Conversely, transfers cannot occur between funds without authorization from the City Council.

Budget Transfers Within a Fund

In order to initiate a transfer of budgeted funds from one line item to another within the same fund, the department requesting the transfer must complete a "City of High Point Budget Transfer Request" form indicating the budget account number to transfer from, the budget account number to transfer to, and the amount to be transferred. An adequate explanation of the need for the transfer must accompany the request.

The completed form must be signed by the department head and submitted to the Budget Office. Upon receipt, the Budget Office reviews the form for completeness and accuracy, verifies that the requested transfer amount is available for transfer, and determines if the request is valid.

Upon signature authorization and approval by the Budget and Performance Manager, the request is entered into the general ledger system to process the budget transfer. Budget transfers result in no increase or decrease in the fund's budget.

One exception to the City Manager's authority to transfer budget within a fund is that of contingency transfers. The City Manager is required to communicate to City Council any transfers by his authority out of a fund's contingency account into any other budget for expenditure.

Fund Appropriation Increases and Decreases

The need for any budget ordinance amendment that results in either increases or decreases in a fund's total budget or which involves transfers of budget between funds requires City Council formal authorization and approval.

For example, if revenue is made available during the fiscal year that was not included in the original adopted budget ordinance, the City Council may elect to appropriate this revenue and budget a corresponding amount of expense for a stated purpose.

In addition, the City Council may elect to transfer, contribute, or reimburse one fund from another fund for a stated purpose. In any of these instances an increase in the fund's budget is the result.

To implement this, the Budget Office prepares a Budget Ordinance Amendment which states the revenue and expense accounts involved, the amount of the amendment, and the purpose of the amendment. This Appropriation Ordinance is then presented to the City Council for deliberation and approval. When approved, the Budget Office files the ordinance with the City Clerk and prepares the appropriate budget transfer request forms and processes them as outlined in the section above.

ACCOUNTING SYSTEM POLICIES

The accounting policies of the City of High Point shall conform to the generally accepted accounting principles as applicable to governments.

The diverse nature of governmental operations and the requirements of assuring legal compliance preclude recording all governmental financial transactions and balances in a single accounting entity. Therefore, from an accounting and financial management perspective, a governmental unit is a combination of several distinctly different fiscal and accounting entities, each having a separate set of accounts and functioning independently of each other.

The basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. As in the basis of budgeting, accounting records for the City of High Point governmental funds are maintained on a modified accrual basis with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. In contrast to the basis of budgeting, accounting records for proprietary funds are maintained on the **accrual basis** in which revenues are recognized when earned and expenses are recognized when incurred.

Fund Basis

The City of High Point's accounting system is organized and operated on a fund basis. Each accounting entity is accounted for in a separate "fund" which is defined as a fiscal accounting entity with a self-balancing set of accounts recording cash and other financial resources together with related liabilities and residual equities or balances, and changes therein. Two fund types defined in the "Description of Budgeted Funds" are further defined below as well as the addition of Fiduciary Funds.

<u>Classification</u>	<u>Fund Type</u>
Governmental Funds	General
	Special Revenue
	Debt Service
	Capital Projects
Proprietary Funds	Enterprise
	Internal Service
Fiduciary Funds	Agency
	Expendable Trust

Governmental Funds These funds are, in essence, accounting segregations of financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used; current liabilities are assigned to the fund from which they are to be paid; and the differences between governmental fund assets and liabilities (the fund equity) is referred to as Fund Balance. The primary measurement focus is "flow of current financial resources." Increases in spendable resources are reported in the operating statement as revenues or other financing sources, and decreases are reported as expenditures or other financing uses.

Proprietary Funds These funds are sometimes referred to as income determination, non-expendable, or commercial-type funds and are used to account for a government's on-going organizations and activities which are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business and quasi-business activities, where net income and capital maintenance are measured, are accounted for through proprietary funds. The generally accepted accounting principles here are those applicable to similar businesses in the private sector, and the measurement focus is the economic condition of the fund as a result of the events and transactions of the period. Events and transactions that improve the economic position of a proprietary fund are reported as revenues or gains in the operating statement. Those that diminish the economic position are reported as expenses or losses.

Fiduciary Funds These funds account for assets held by the City in a trustee capacity or as an agent for other governmental units and for other funds. Each trust fund is accounted for as either a governmental or a proprietary fund. Fiduciary funds are not budgeted in the annual budget process.

Account Groups

These represent another accounting entity used to establish control and accountability for the City's general fixed assets and the outstanding principal of its general long-term debt (General Fixed Assets Account Group and General Long-Term Debt Account Group).

These records are accounted for in a self-balancing group of accounts because the City's General fixed assets -- all fixed assets except those accounted for in Proprietary Funds or Trust Funds -- are not financial resources available for expenditures. The outstanding principal of the general long-term debt and general long-term liabilities not accounted for in the Proprietary Funds or Trust Funds do not require an appropriation or expenditure during the account year.

Internal Control

In developing and maintaining the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

ELECTRIC FUND TRANSFER POLICY

Because of the major impact that this revenue source could have on the General Fund and therefore the tax rate, special comment is warranted on the Electric Fund.

On February 1, 1996 the High Point City Council adopted an Electric Fund Transfer Policy, which restricts the amount of funds which can be transferred to the General Fund from the Electric Fund. The policy provisions are summarized below:

- *Whereas the City Council desires to preserve the financial integrity of the Electric Fund and to reduce the General Fund's dependence on Electric Fund transfers...*
- *Whereas if electric services had been provided by an investor-owned utility instead of the city's Electric Fund, such utility would have paid municipal ad valorem taxes to the General Fund of the City and would have been entitled to a return on investment;*
- *Therefore, be it resolved by the City Council, that the following policy regarding payments in lieu of taxes and operating transfers from the Electric Fund be adopted:*
 1. *The City shall budget annually a payment in lieu of taxes amount from the Electric Fund to the General Fund that approximates the amount of ad valorem taxes that would have been paid had electric services been provided by an investor-owned utility*
 2. *Operating Transfers: The City may budget an operating transfer from the Electric Fund to the General Fund not to exceed 3% of the gross fixed assets of the Electric Fund as reported in the City's most recent audited financial statements*

The transfer to the General Fund was eliminated in fiscal year 2000-2001 and continued through fiscal year 2009-2010 in keeping with the directives of the City Council to develop a plan to discontinue the transfer of money from the Electric Fund to the General Fund.

Due to the shortfall in General Fund Revenues in fiscal year 2009-2010, the City Council authorized a one-time transfer of \$1.0 million to supplement the General Fund for fiscal year 2010-2011. The 2013-2014 proposed budget does not include a transfer from the Electric Fund. The amount budgeted for Payment in Lieu of Taxes from the Electric Fund to the General Fund for fiscal year 2013-2014 is \$805,173.

BASIS OF BUDGETING AND BUDGET STRUCTURE

Basis of Budgeting

The City's budget is developed on a modified accrual basis for all funds, which means that *obligations of the City are budgeted as expenditures*, but revenues are recognized only when they are measurable and available. Available means that the funds are collectible within sixty days of the fiscal year-end. The Local Government Budget and Fiscal Control Act requires that the budget ordinance be balanced. North Carolina General Statute 159-8(a) states:

Each local government and public authority shall operate under an annual balanced budget ordinance....A budget ordinance is balanced when the sum of estimated net revenues and appropriated fund balance is equal to appropriations.

Appropriations are exclusively limited to cash and cash equivalents less current claims against that cash. The statutory formula is cash and investments minus the sum of liabilities, encumbrances, and deferred revenues arising from cash receipts.

The Annual Budget authorizes and provides the basis for the City's financial management. The adopted appropriations constitute the maximum expenditure authorization during the fiscal year and can only be amended by action of the City Council.

Budget Structure

The City's budget is divided into funds. An annual budget is adopted for the General, Special Revenue, Debt Service, General Capital Projects, Enterprise and Central Service Funds. (These are illustrated in the "Budgetary Fund Structure" chart on page xxii and further defined in the "Description of Budgeted Funds" on page xxiii). Within each fund are the separate departments with various activity budgets. The Annual Budget is adopted at the department level.

Budgetary Control

Beginning with the budget for fiscal year 2009-2010, a new budget software system was implemented. The system is Fletcher and Fletcher Budget Information System, a web-based application designed using a relational

database product and designed to be used across the internet/intranet network and provide security features for the user and Budget Office personnel.

The Fletcher and Fletcher Budget Information System has multiple features that are self-contained including five to ten year salary and benefits expense, operating budget preparation, capital improvements module, and performance goals and objectives.

The Fletcher and Fletcher Budget Information System eliminated the need for the Budget Office to push spreadsheets out to departments electronically for budget preparation. Departments enter budget requests directly into the budget system, and have the ability to generate individual reports at the fund, department, and accounting unit levels.

The system will also allow many "what if" scenarios to be tested. All preparation of the budget up to adoption is done in the Fletcher and Fletcher Budget Information System. The budget system is solely a system for preparing and balancing the budget. The budget is uploaded into the Lawson Financial System following adoption.

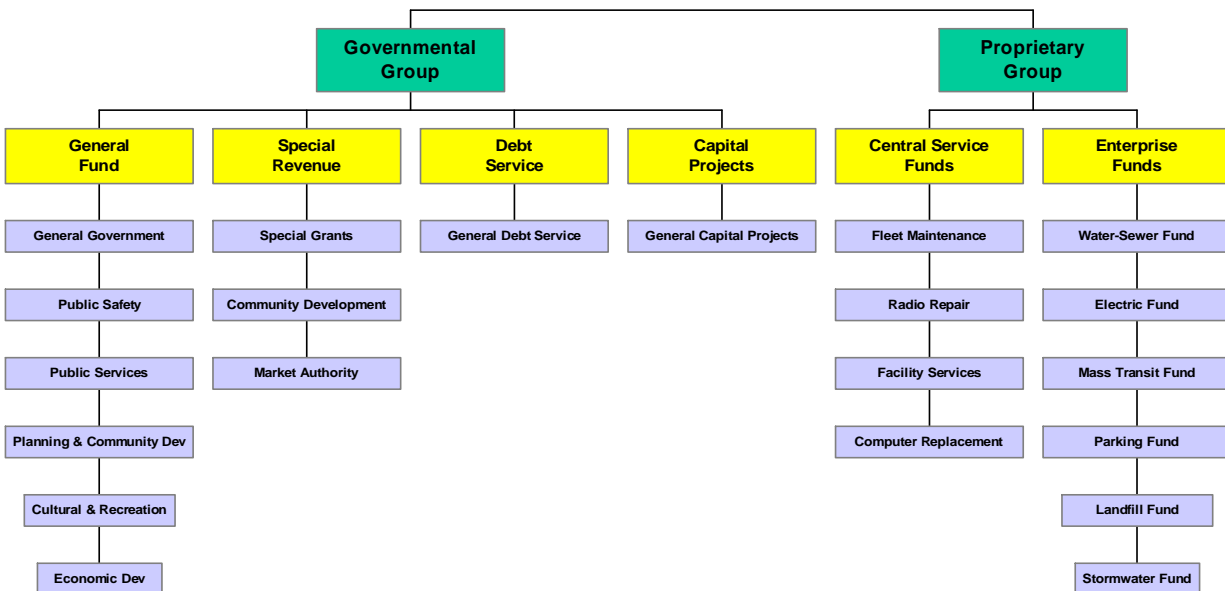

Financial Management System

The financial system implemented in fiscal year 2006-2007 by the City of High Point is Lawson Enterprise Resource Planning (ERP) that provides for excellent fiscal management.

The General Ledger acts as the heart of the financial management system. The General Ledger function interfaces with other Lawson Applications such as Purchasing and Accounts Payable each of which feed into the General Ledger.

The Lawson Financial System budget edits allow for excellent budgetary control at the department or accounting unit level. This functionality checks for available funds before new commitments and encumbrances are released by the system.

BUDGETARY FUND STRUCTURE

The City's budget is developed on a modified accrual basis for all funds, which means that obligations of the City are budgeted as expenditures, but revenues are recognized only when they are measurable and available. As in the basis of budgeting, accounting records for the City of High Point governmental funds are maintained on a modified accrual basis with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities are incurred. In contrast to the basis of budgeting, accounting records for proprietary funds are maintained on the accrual basis in which revenues are recognized when earned and expenses are recognized when incurred.

DESCRIPTION OF BUDGETED FUNDS

The City of High Point budget consists of two basic fund types: Governmental Funds and Proprietary Funds.

Governmental Funds

The measurement focus of governmental funds is upon determination of financial position and changes in financial position rather than upon net income.

General Fund

The General Fund is used to account for general government operations of the City, which are financed through taxes or other general revenues, contributions, reimbursements, or transfers from other funds. The General Fund accounts for all financial transactions not required to be accounted for in another fund. The Economic Development Fund is used to account for funds appropriated for investment incentives to aid in attracting investors to the City.

Special Revenue Funds

- **Special Grants** is used to account for revenues received from federal, state, and local sources or groups designated for expenditure on particular programs and projects. These programs and projects are usually non-recurring in nature and of short duration.
- **Community Development** is used to account for revenues and expenses derived from the Community Development Block Grant entitlements to the City.
- **Market Authority** is a public-private partnership sponsor of the International Home Furnishings Market and is used to develop strategies and priorities to address and promote improvements for the annual spring and fall markets

General Debt Service Fund

The General Debt Service Fund is used to account for the accumulation of resources for and the payment of general long-term debt, principal and interest for bonded indebtedness incurred for the financing of projects associated with General Fund activities. (Debt service for enterprise funds is accounted for in those funds.)

General Capital Projects Fund

The General Capital Projects Fund is used to account for the acquisition or construction of major capital facilities, equipment, and improvements other than those financed by the enterprise funds.

Proprietary Funds

The measurement focus of proprietary funds is upon determination of operating income, changes in net assets, financial position and cash flows. Use is required for operations for which a fee is charged to external users.

Central Services Fund

The Central Services Fund is used to provide centralized services such as fleet services on a cost-reimbursement basis that provides the revenue to support the Central Services Fund.

Enterprise Funds

- **Water-Sewer Fund** is an enterprise fund used to account for the provision of water and sewer services to the residents of the City and some county residents. It includes all operating, debt service and capital improvements associated with providing water and sewer services.
- **Electric Fund** is an enterprise fund used to account for the provision of electric service to the residents of the City. It includes all operating, debt service and capital improvements associated with providing electric service.
- **Mass Transit Fund** is an enterprise fund used to account for the operation and maintenance of the City's public transportation system, Hi tran.
- **Parking Fund** is an enterprise fund used to account for the operation and maintenance of the City's various parking facilities. It includes all operating, debt service and capital improvements for the parking facilities.
- **Landfill Facilities Fund** is an enterprise fund used to account for the operation and maintenance of the City's landfill and municipal recycling facility. It includes all operating, debt service and capital improvements for the landfill and recycling facilities.
- **Stormwater Fund** is an enterprise fund used to account for the operation and maintenance of the stormwater program, which manages stormwater runoff, bank stabilization, and maintenance of detention lakes and ponds. All expenses including debt service and capital improvements for the stormwater operation are included in this fund.

The Analysis/Summaries section contains charts, graphs, summary tables, and discussions of the City's revenues and expenses for fiscal year 2013-2014 with historical data for comparison purposes.

The Consolidated Summary of Revenues and Expenditures that begins this section is a summary of total revenues and expenses by fund by major revenue and expense category. Following this summary the section is divided into revenue and expense information, personnel summaries, and outstanding debt information.

2013-2014 SUMMARY OF REVENUES,

	GENERAL FUND	WATER AND SEWER FUND	ELECTRIC FUND	MASS TRANSIT FUND	PARKING FUND

WHERE THE MUNICIPAL DOLLAR ORIGINATES

Utility Fees	Electric Fees, Water and Sewer Fees
Property Tax	General Fund Property Tax, Bond Property Tax
Charges for Services	Charges for Services from General, Central Services, Transit, Parking, Landfill and Stormwater Funds, and Miscellaneous Revenues
Interfund Charges	Other Financing Sources
Intergovernmental Revenues	Revenues from Federal, State and other Local jurisdictions
Sales and Use Tax/Licenses and Fees	Sales Tax, Vehicle Tax, Room Occupancy Tax, Licenses, Permits, Inspections, Library Fines, and other Miscellaneous Fees
Appropriated Fund Balance	Fund Balances

ESTIMATED CHANGES IN FUND BALANCES

Fund Balance represents the excess of a fund's assets and revenues over its liabilities, reserves, and expenditures at the close of the fiscal year.

The North Carolina Local Government Commission (LGC) recommends that units of government maintain a minimum fund balance in their operating funds of 8% of estimated expenditures. This level has been determined to be the equivalent of one month's expenditures and is generally regarded as a minimum level to avoid cash flow interruptions, generate interest income, reduce the need for short-term borrowings, and assist in maintaining investment grade bond ratings.

The High Point City Council-adopted Fiscal Policies maintain minimum fund balances at 10% of estimated expenditures as a signal of financial strength and fiscal stability. The City of High Point applies the policy to all operating funds *except* the Economic Development, General Debt, and General Capital Project funds as they are covered by more specific strategic plans. A summary of fund balances and estimated changes therein are shown below:

Fund	Fund Balance	Fund Balance	Estimated	Projected Fund	Appropriated	Estimated	Percentage
	Available	Available	Increase/ (Decrease)	Balance Total	for FY 2013- 2014	Fund Balance	
	6/30/2011	6/30/2012	6/30/2013	6/30/2013		FY 2013-2014	of FY 2013- 2014 Budget
General	\$ 12,891,892	\$ 13,274,663	\$ 2,051,511	\$ 15,326,174	\$ 2,640,719	\$ 12,685,455	11.81%

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

The Budget Staff as well as state analysts has been challenged in the past to forecast revenues because of the unprecedented downturn in the nation's and North Carolina's economy since 2008. However, in the past year, we are beginning to see positive movement towards a recovering economy. Even though the NC League of Municipalities reports that North Carolina has lagged behind the nation economically, some improvement is being seen and national forecasts indicate that some growth will continue to take place for the remainder of 2013 and into 2014 although at a slow pace. The growth in North Carolina coming out of the recession has been hampered by limited expansion in employment, which is especially dire for the state because of the large number of jobs lost in manufacturing and construction. However, it is reported that for the first time since 2008, North Carolina's unemployment rate is less than 10%. It is anticipated that the new normal for North Carolina's economy will not return to pre-recession levels but analysts are seeing a restored consumer confidence and significant improvements in income growth.

The Federal Reserve continues to positively impact economic growth while simultaneously trying to avoid problems with inflation or deflation. The economic diversification in High Point continues to help offset the loss of traditional manufacturing jobs of the surrounding areas and its impact on the local economy. Additionally in 2012, High Point had three of the top five largest projects announcements in the Piedmont Triad region on a list of 47 job creation announcements translating into 19% of the region's total jobs announcements. The City celebrated economic development successes with several large employers relocating to High Point or expanding existing operations.

The Budget Office takes a conservative approach in projecting revenue growth as it relates to major revenue assumptions. Revenue budgets for the general and enterprise funds are based on various factors. These considerations reflect substantial evaluation to determine which variables are most reliable in the budget development process. The most notable resources considered include:

- Economic forecasts studied using various newsletters from both the State of North Carolina and national and regional trends.
- Information on property tax growth or reduction from the Guilford County Tax Office.
- Trends in revenue collection and monthly reports generated by various departments relative to their particular functions.
- Information from the North Carolina League of Municipalities (NCLM) concerning municipal state-collected revenues, proposed tax and utility rate increases.
- Information from the High Point Economic Development Annual Report.
- Experiences and situations that affect the City's operation.

The overall budget for 2013-2014 **increased 4.82% or \$15.8 million above the 2012-2013 budget**. Following are the major revenue assumptions and analyses that were used in the development of the fiscal year 2013-2014 revenue budgets.

Population

Changes in population can have a direct effect on City revenues. Several taxes and intergovernmental revenues are distributed on a per capita basis and population levels appear at least indirectly related to such issues as employment, income and property value. Population projections help decision-makers anticipate needs before they arise.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Analysis

A gradual increasing population trend is considered favorable. However, as the population grows, so does the demand for services. High Point has experienced continued growth since the April 2000 U.S. Census was taken. The population of High Point has increased from 85,839 in the 2000 Census to an estimated 108,285 through 2013 based on the most recent data. This represents an average annual increase of 2.1%. During the period 2000 thru 2010, the tax base consistently increased which is a favorable indicator. There has been a decrease in the City's tax base for the last four years due to the decline in new automobile purchases and the decline in property values in general.

Inflation

The Consumer Price Index (CPI) is probably the most widely recognized and used measure of price level changes for consumer goods and services. The CPI is based on a weighted average of prices for a market basket of goods from six different categories: food, housing, apparel, transportation, health and recreation. Inflation reflects a reduction in the purchasing power of currency reducing the amount of goods or services a person can get for the same amount of money. For instance, if the price of eating a meal used to be \$5, inflation boosts that amount to more than \$7, with service staying the same. Stability in price levels is generally beneficial and continued low rates of inflation indicate a positive trend.

Analysis

The annual increases in the CPI from 2005-2012 have averaged about 4.3% annually. Each upturn in inflation was countered by the Federal Reserve Board with reductions in interest rates. These actions were predicted to stabilize the CPI at around 3.0% over a period of years. However, because of continuing uncertainty and economic slowdown, there have been several years of fluctuating inflation. The rise in inflation in 2006 may have been a natural lag consequence of excess demand created by increased consumer spending. The rate of inflation accelerated again in 2008, pushed by higher prices for services, food and energy. On April 30, 2008, the Federal Reserve Board cut its target interest rate by a quarter percentage point in an unsuccessful effort to prevent a recession. The recent recession became the longest since the Great Depression. A sustained rise in energy costs and consumer spending may continue to influence growth in the CPI, but at a slower rate. The City projects annual inflation increases to be close to an estimated average of 2.1%.

Property Values

Changes in property value are important because most local governments depend on the property tax for a substantial portion of their revenues. Property tax or ad valorem tax is the largest funding source for general government services, providing 53% of the City's total fiscal year 2013-2014 General Fund revenues. The higher the aggregate property value, the higher the revenues generated. The assessed value is used as an indicator of the City's aggregate property value on which the property tax rate is applied to compute City property tax revenue.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Analysis

January 2012, the County reassessed all real property values. Fiscal year 2013 revalued real property values for the City are estimated to be down 3.9% to a projected \$8.9 billion from the \$9.2 billion of FY2012. This decline in the assessed valuation is based on projections by the Guilford County Tax Department. Tax based growth in fiscal years 2007 through 2010 reflects the growth in property values throughout the area. Since the housing market downturn, there has been a significant decline in the assessed valuation. The County expects to see a slight increase in 2014 tax base above the fiscal year 2013 level.

Ad Valorem Tax

Property tax is an important revenue to consider individually because it comprises the City's second largest single revenue source next to utility revenues. The property tax is levied each year on the value of real property and certain personal and public utility property that is listed as of January 1 of that year. Real property must be revalued every eight years in accordance with the provisions of NC General Statutes 105-286, while personal and utility values are adjusted annually. The latest property revaluation was completed January 2012 effective in the fiscal year 2012-2013 budget.

Analysis

At the time of a property revaluation, it is required by the State that the municipality calculate and publish a revenue neutral tax rate that when applied to the updated property values, controlling for the average annual change in the tax base, will generate the same amount of revenue in the proposed budget year had the property valuation not occurred. Based on the State's formula, the revenue neutral tax rate for FY2013 would have been \$.696. The City only included a tax rate of \$.675 in the fiscal year 2013 budget. This generated less revenue in fiscal year 2013. Of the \$.675, the General Fund property tax is \$.641 and the Debt Service fund tax rate is \$.034. A slight increase in property growth is included in the projections for fiscal year 2013-2014. Beginning in fiscal year 2009 you can see the impact of the downturn in the economy. Fiscal year 2012 collections came in better than anticipated due to the collection for motor vehicles coming in higher than

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

budgeted. There is a minimal decrease projected for fiscal year 2013 and 2014 as a result of the revenue neutral calculation. One-cent on the tax rate generates approximately \$891,000 in new revenue.

Sales Tax and Hold Harmless Revenues

Sales taxes are collected by the State of North Carolina and distributed monthly. Sales tax revenue is considered elastic revenue meaning it is highly responsive to changes in economic factors and inflation. During good economic periods, sales tax revenue increases with the rise in retail business and declines during distressed times, even though the tax rate remains the same. Local sales taxes are especially sensitive to any local changes in residential construction activity.

Analysis

Effective January 1, 2003, Guilford County adopted the additional 1/2 cent sales tax, in partial response to the elimination of some vital intergovernmental reimbursement revenues discussed later. An agreement to provide a “hold harmless” payment from the State was put into place for 10 years to offset the difference between the amount local governments would have received in fiscal year 2001-2002 and the new sales tax. **The annual hold harmless distribution collected in August 2012 was the final distribution.** Additionally, Guilford County Commissioners changed the distribution method for sales tax revenues from the per capita method to the ad valorem (property tax) method beginning in fiscal year 2003-2004. Consequently since that year, the City of High Point has experienced a significant loss of over \$7.1 million because of the change in distribution methods. NCLM indicates that statewide sales tax distributions to local governments for the first six months of fiscal year 2012-2013 showed a slight increase of 1.5% above the comparable period in fiscal year 2011-2012 but less than the 3.0% projected, due to larger than average refunds. Sales tax distributions are expected to come in at 3.0% for the remainder of the year. As a result, NCLM projects a statewide local sales tax at 3.0% above the fiscal year 2012-2013 level. Taking all of these factors into consideration, projections for fiscal year 2013-2014 reflect a conservative increase in sales tax offset by losing the Hold Harmless distribution, thus projecting a net decrease of 3.0% below fiscal year 2012-2013.

Threat and Loss of Intergovernmental Revenues

Intergovernmental revenues are those received by the City that are collected by another governmental entity including revenues such as the Beer and Wine Tax, ABC Mixed Beverage Tax, Utility Franchise Taxes all received from the State and Local Video Programming Revenues. Intergovernmental revenues also include contributions from Guilford County for shared services, Powell Bill (gasoline tax), Community Development funds and grants. A dependence on intergovernmental revenues, which carry stipulations, can have an adverse impact on the financial condition of a city because of restrictions attached to the revenue. The concern is to determine whether the City is controlling its use of these revenues or whether these revenues are controlling the services provided to the City.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Analysis

In fiscal year 2001-2002 several intergovernmental reimbursement revenues were eliminated including the Intangibles Tax and the Inventory Tax. The increase in intergovernmental revenues for fiscal year 2005-2006 was because of increases in Reimbursement-Hold Harmless Provision, a one-time Federal Grant and Guilford County shared revenues. Local Video Programming revenue was added in fiscal year 2007-2008 to replace a portion of local cable franchise taxes which were eliminated. This revenue stream is a share of State special sales taxes for cities with qualifying Public, Educational and Governmental channels. Cable Franchise Taxes average approximately \$695,000 annually. Fiscal year 2009-2010 came in better than projected due to the actual Hold Harmless collection. NCLM project the full 2013 year distribution to be 4.6% below the FY11-12 level. The budget staff projects Intergovernmental Revenues (excluding Utility Franchise Tax and Powell Bill) for fiscal year 2013-2014 to come in 6% less than fiscal year 2012-2013 due to the loss of the Hold Harmless distribution.

State Utility Franchise Tax

The State levies a franchise tax on the gross receipts of electric and telephone companies operating in North Carolina. The State also levies an excise tax on piped natural gas based on consumption by end users. The State shares a portion of these tax revenues with municipalities based on sales and consumption within each city. Local weather conditions, annexations, the loss of a heavy industrial user of electricity and any increases or decreases in local utility rates influence this revenue source.

Analysis

The City has on average experienced favorable growth in these revenues. In fiscal year 2007-2008 the City experienced a change in the annual Furniture Market dates from more extreme cold and high temperature months to more weather neutral months. July and August 2007 were also cooler than usual resulting in a reduction in electricity consumption. The combination of these and other factors resulted in a reduction of sales. The utility franchise tax distributions for fiscal year 2012-2013 has come in nearly equal to 2012. A 1.9% increase is estimated for fiscal year 2013. The Budget Staff projects the fiscal year 2013-2014 budget to remain relatively the same as FY 2012-2013 and 2.0% over fiscal year 2011-2012 actual. Growth in this revenue source is highly sensitive to weather conditions.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Powell Bill

Of the total gasoline tax collected in North Carolina during each fiscal year, a specified amount of the proceeds per gallon are distributed among the State's cities and towns. Seventy-five percent of the local proceeds are distributed on a per capita basis, with annual population estimations provided by N.C. Department of Administration. Twenty-five percent of the local proceeds are then distributed according to the number of non-state streets in each city or town. NC General Statute 136-41.3 restricts municipalities' use of Powell Bill Funds.

Analysis

State analysts suggest a total Powell Bill allocation for fiscal year 2013-2014 to decline statewide by 0.3% below the fiscal year 2012-2013 distribution. The per capita value for next year's distribution is expected to be approximately \$20.16 per capita, relatively the same per capita as in fiscal year 2012-2013. The projected per mile allocation for fiscal year 2013-2014 is approximately \$1,578.99 per street mile or an increase of \$17.01 compared to the \$46.99 increase during fiscal year 2012-2013. These allocations are based on projections from the NC League of Municipalities. Based on actual collections to date, the City's fiscal year 2012-2013 estimate reflects an increase of 2.8% in receipts over the collections for fiscal year 2011-2012. The fiscal year 2013-2014 projection reflects no increase based on the latest State Budget Office estimates of highway revenues relative to High Point's population growth and other factors. This revenue source continues to be threatened.

Interest on Investments

This revenue source for the City has experienced the most significant decline over any other source and remains unpredictable. The forecast for fiscal year 2013-2014 of \$1.1M represents a 4.6% increase compared to the estimate for fiscal year 2012-2013 mainly due to a modest improvement in the economy. The amount of interest on investments is dependent upon reserved balances of the general obligation bonds, revenue bonds and pay-as-you-go funding designated for capital projects, sound cash management decisions, as well as a modest improvement in the economy. The average yield has been below 2% the past few years. Because of the decline in interest rates, most of the City's funds have been kept more liquid. The City's total portfolio amount reflects the completion of various capital projects and the recent and current variance in the interest rates.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Business Licenses

Licenses are another barometer of our local economic climate. As our growth engine slowed, entry of new businesses slowed resulting in lower revenues. The significant decrease in 2008 of 14.2% and another 12.5% decrease in 2011 is a direct result of the unprecedented downturn in the nation's economy. Business license fees are based on business sales receipts. Local businesses began to report lower sales beginning in 2008. We have begun to see positive growth in this revenue source. The 2014 budget does not include a fee increase for business licenses and projects revenue to come in slightly higher than the 2013 estimate. A word of caution – the State has indicated that the formula for this revenue is subject to be reduced or eliminated.

Building Inspections

Economic conditions and the building industry directly impact revenues generated from our Building Inspections fees and permits. When the construction industry experiences decline, the number of building permits issued declines; therefore, inspection revenues are directly impacted.

Analysis

Through 2006, High Point experienced consistent growth in building inspection revenues. The decrease, which began in fiscal year 2007, is believed to be due to a sluggish economy and the effects of the housing market/mortgage crisis. Statewide building permits for new single family homes are being issued below the peak level prior to the recession. However, state analysts report seeing some rebound in construction-related jobs and spending, but more due to home improvements and some multi-family unit construction rather than in single family construction. For the City of High Point, the total valuation of new commercial construction declined through the third quarter of 2013 but there has been an increase in the number of units. New residential construction valuation during the same period also reflects a decrease below the same period with a decline in the number of permits declined from 59 to 40 units. The fiscal year 2013-2014 budget projects building inspections revenues to come in 7% above the fiscal year actuals. By request of the City Council, new construction services of the Building Inspections Department are to be supported by the permit and service fees. Inspection revenues are projected to contribute 37% to the operations of the Building Inspections Department during fiscal year 2013-2014.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Water & Sewer Utilities

As of June 2010, the City had sold approximately \$128.4 million in water and sewer revenue bonds since November 17, 2004. The City expects to sell another \$32.2 million by the winter of 2013. Future water and sewer rate increases are expected to continue in the annual range of 4.0% to 6.0% into future years to complete the financing needed for various infrastructure projects. Losing sales to Jamestown and Archdale due to Piedmont Triad Regional Water Authority coming on line did not have a negative effect on fiscal year 2010-2011 sales. A 4.9% average rate increase was adopted in the fiscal year 2011 and 2012 budgets. No rate increase is included in the fiscal year 2013-2014 budget for Water and Sewer. Slight growth in consumption is projected for fiscal year 2013-2014.

Electric Fund Customer Sales

The City is committed to maintaining competitive retail electric rates. Changing weather trends significantly impact electric fund revenues. In the summer of 2007, High Point experienced extreme heat. From July through September, there were several days when temperatures reached into the 100s. The summer of 2008 was cooler, resulting in a reduction in sales in the range of 20%. The High Point Furniture Market being moved to late October also had a negative impact on revenues. In 2011, the City experienced another unseasonably hot summer where kilowatt demand exceeded 35,000 units in the first six months. Fiscal year 2011-2012 there was a reduction in consumption. Fiscal year 2012-2013 consumption is projected back to normal levels. The 2013-2014 budget includes a 4.9% rate increase effective July 1, 2013 to help offset the 5.0% wholesale power rate increase charged to the City for purchased power. Electricities continue to monitor and evaluate load growth, revenues and expenditures to minimize future rate increases.

MAJOR REVENUE ASSUMPTIONS & TREND ANALYSIS

Parking Fund

Operating revenue from the parking facilities for fiscal year 2012-2013 is estimated to come in 6.0% below budget. A decline was projected below 2011-2012 when the fiscal year 2012-2013 budget was prepared. Revenues have rebounded somewhat when comparing collections through the same period in fiscal year 2010-2011. The decrease in revenues is mainly in Parking Lot #1 due to lower revenues received from the hotel and Lot #2 due to cancellation of monthly parking contracts.

Landfill Fund

The fiscal year 2013-2014 budget continues the \$2 per ton Landfill State Excise Tax that was mandated by the State to help pay for assessment and remediation of pre-1983 landfills. The amount shown in this budget is the portion that the City will receive from the State. The solid waste collection fee, which was established in fiscal year 1997-1998, will continue to be used to build new landfill capacity and to provide reserve funds for future landfill development and for closure and post-closure costs. Tipping fees are estimated to come in 8.8% above budget and 3.0% above fiscal year 2011-2012 actual. The increased tonnage may be due to Furniture Market activities and increased construction tonnage. Overall, tonnage has been down because citizens are recycling more using the larger 96 gallon carts reducing the stream of trash going to our landfill.

Stormwater Fund

The fiscal year 2013-2014 budget continues a stormwater equivalent residential unit (ERU) rate of \$2 ERU per month based on 2,455 square feet impervious area. This rate continues to be among the lowest in North Carolina. Based on current collections, the budget staff projects revenues for fiscal year 2013-2014 to be relatively the same as the fiscal year 2012-2013 adopted budget.

Appropriated Fund Balances and Retained Earnings

Every effort is made to maintain a stable or reduced level of fund balance appropriations. An intentional decision was made by management in fiscal year 2013-2014 to appropriate additional fund balance to fund one-time capital and other needs as explained in the departmental summary pages of the document, while maintaining the City's minimum fund balance policy of 10%. The fiscal year 2013-2014 budget shows an increase above fiscal year 2012-2013 budget mainly to fund three major Stormwater projects and fund to complete the funding for the Municipal Recycling Facility renovations. Please refer to the section titled "Estimated Changes in Fund Balance" for details on each fund's activity.

ANALYSIS OF REVENUE SOURCES

	FY 2012 ACTUAL	FY 2013 BUDGET	FY 2014 PROPOSED	CHANGE	% Budget CHANGE
GENERAL FUND

PROPERTY VALUATION OVERVIEW

Comments

The City has experienced only slight growth in property valuation in the years since the revaluation in 2004. North Carolina State law requires property revaluation at least every eight years. All property in Guilford County was revalued as of January 1, 2012, which decreased the 2012-2013 tax base by \$307 million or 3.3%. The City's valuation for 2013-2014 has been estimated to be \$8,915,655,000 or a 0.40% increase from the estimated 2012-2013 valuation.

WHERE THE MUNICIPAL DOLLAR GOES

Electric	Electric Fund
Public Safety	Communications Center, Police, Fire, Building Inspections, Debt Service
Recreation/Culture/Neighborhoods	Parks & Recreation, Library, Theatre, Outside Agencies, Debt Service, Economic Development, Community Development, City Project, Market Authority
General Government	Governing Body, City Management, City Attorney, Budget and Evaluation, System Project Administration, Human Relations, Engineering, Information Technology Services, Human Resources, Financial Services, Special Appropriations, Debt Service
Transportation	Transportation, Street Maintenance, Debt Service, Transit, Parking
Debt Service/Other Transfers	Reimbursements and Transfers, Contingency, Debt Service, Internal Service Funds, Special Grants Fund
Environmental Health	Public Services except Street Maintenance, Water and Sewer, Landfill, Stormwater

AUTHORIZED POSITIONS

The fiscal year 2013-2014 budget contains 1,357 full-time positions and 208 part-time positions. There were six full-time and one part-time positions reinstated mid-year in the 2012-2013 budget. There are no positions requested in the fiscal year 2013-2014 budget.

As can be seen in the chart below, as the level of authorized positions has decreased, the number of employees per thousand population has also decreased. Specifics are indicated in the Summary Personnel Complement in the following section.

AUTHORIZED POSITIONS PER CAPITA

The part-time position was reinstated in the Library.

DEBT SERVICE POLICIES & OVERVIEW

In North Carolina the issuance of bonds is accomplished with the guidance and approval of the North Carolina Local Government Commission (LGC) from the point of development of a bond referendum to the actual sale of the bonds. The LGC must approve the concept and amount of a bond issuance before it goes to the voters for approval. Upon approval of a bond referendum by the citizens and sale of the bonds, the LGC is able to develop a level payment schedule to avoid major swings in the debt service obligations from year-to-year. As old debt is either retired or decreases, new debt is issued. This helps in minimizing the effect of debt on the property

tax rate and as well as utility rates when revenue bonds are issued.

The City Council and City Manager's staff recommended a list of bond projects to the citizens of High Point. The voters in a bond referendum passed the total bond package of \$73,650,000 on November 2, 2004.

Listed below are the City of High Point debt issues that are on the current long-term debt plan. In addition to bonded debt, the City of High Point entered into a \$9.8 million lease-purchase with Motorola for an 800-MHz Radio System. The total long-term debt for fiscal year 2013-2014 is \$27,059,970 and is shown by fund below.

DEBT ISSUES

General Debt Service

The total General Debt Service for fiscal year 2013-2014 is \$9,809,968 or an increase of \$347,768 or 3.7% from fiscal year 2012-2013. The fiscal year 2013-2014 General Fund debt issues are as follows:

	<u>FY 2014 Debt Service</u>	<u>Pay Off Year</u>
• 2003 – G.O. Refunding	347,706	2015
• 2004 – Motorola Radio System Lease-Purchase	1,174,163	2014
• 2004 – Bond Authorization Funding	3,070,779	2030
• 2005 – G.O. Refunding	2,197,529	2019
• 2007 – 2/3 Public Improvement Bonds	229,538	2028
• 2010 – Joblink @ Idol Street Loan	256,405	2020
• 2010 – 2/3 Public Improvement Bonds	927,850	2017
• 2012 – 2/3 Public Improvement Bonds	458,819	2032
• 2012 – G.O. Refunding	492,179	2026
• 2014 – Potential Future Debt	495,000	N/A
• BANs	160,000	N/A

Water-Sewer Fund

Water-Sewer debt service for fiscal year 2013-2014 is \$16,247,195, which is a decrease of \$435,288 from fiscal year 2012-2013. The fiscal year 2013-2014 Water-Sewer Fund debt issues are as follows:

<u>Water / Sewer Bonds and Loans</u>	<u>FY 2014 Debt Service</u>	<u>Pay Off Year</u>
• 1996 Revolving Loan	415,977	2015
• 1996 Clean Water Loan	148,892	2017
• 2003 Revolving Loan	922,125	2022
• 2003 G.O. Refunding	270,266	2015
• 2004 Revenue Bonds	1,230,350	2015
• 2005 G.O. Refunding	2,596,471	2019
• 2006 Revenue Bonds	2,112,414	2032
• 2008 Revenue Bonds	2,644,519	2034
• 2010A Revenue Bonds	736,575	2016
• 2010C Refunding Bonds	2,126,900	2022
• 2010B Revenue Bonds	621,293	2030
• 2012 G.O. Refunding	477,826	2026

DEBT OVERVIEW, CONTINUED

Water / Sewer Bonds and Loans

	<u>FY 2014 Debt Service</u>	<u>Pay Off Year</u>
• 2012 Revenue Refunding	1,265,456	2032
• Federal Revolving Loan – ARRA	32,609	2030
• 2010B-RZEDB Revenue Bonds	485,522	2036
• W-S Debt BAN	160,000	N/A

Landfill Facilities Fund

Landfill debt was paid off in fiscal year 2001-2002. The City Council authorized a \$5 monthly fee for solid waste disposal in fiscal year 1997-1998. Sixty percent of the proceeds from this fee were used to retire debt from the 1996 authorization. With the retirement of the Landfill debt, this fee is providing capital reserve funds for the development of new landfill cells.

Stormwater Fund

The total debt service for the Stormwater Fund in fiscal year 2013-2014 is \$1,002,807, which is an increase of \$117,308 from fiscal year 2012-2013. The 2004 bond referendum included \$15.4 million in Stormwater projects. Stormwater debt service includes the principal and interest payment of the General Obligation portion for Stormwater Bonds. The debt on these bonds will be supported by property taxes dedicated to the General Obligation Bonds. Smaller stormwater projects will continue to be funded through user fees in the Pay-As-We-Go Capital Program. The fiscal year 2013-2014 Stormwater Fund debt issue follows:

	<u>FY 2014 Debt Service</u>	<u>Pay Off Year</u>
• 2003 – Refunding	18,828	2015
• 2005 – Public Improvement Series	118,596	2015
• 2006 – Public Improvement Series	96,850	2027
• 2007B – Public Improvement Series	166,085	2028
• 2008 – Public Improvement Series	186,082	2029
• 2010B – Public Improvement Series	164,121	2030
• 2012 – Refunding	252,244	2026

Long-Term Equipment Leases-Installment Contracts

The City of High Point finances some equipment with installment contracts. The total lease principal and interest for fiscal year 2013-2014 is \$1,692,743, including an estimated amount of \$150,000 for fire truck purchases in FY 2014.

	<u>FY 2014 Debt Service</u>	<u>Pay Off Year</u>
• Fire Equipment	\$646,367	2017
• Public Services-Environmental	747,725	2015
• Information Technology	174,106	2016
• Maintenance Operations	124,544	2016

GENERAL FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

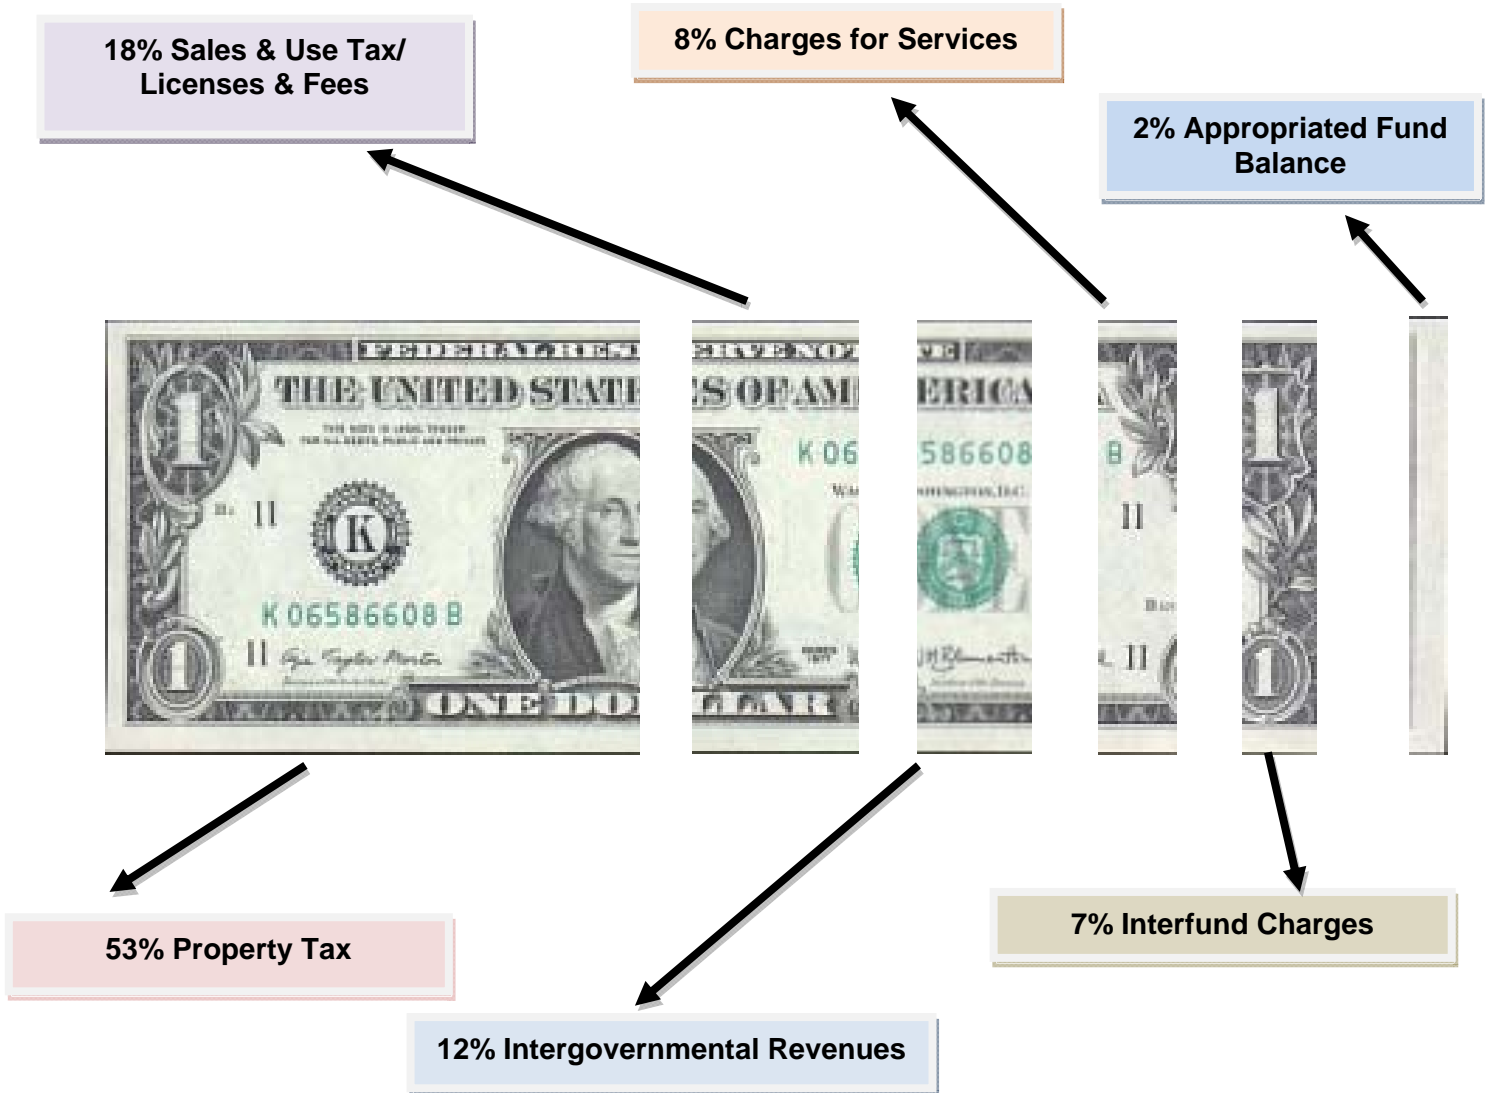

Fund Balance appropriation has decreased from the fiscal year 2012-2013 budget. There has been no change to the property tax rate, maintaining a rate of \$.675. The Debt Service Fund continues to include \$.034 of the tax rate to fund the 2004 bond authorization bond issues as authorized by High Point voters in the 2004 bond referendum. Sales Tax revenues are projected to increase slightly based on current year receipts. Intergovernmental Revenues reflect the loss of Hold Harmless funds due to the ten year sunset provision. Licenses and Permits reflect an increase due to the addition of a \$5 municipal vehicle fee to help fund street resurfacing. Charges for Services increases reflect the addition of a \$5 monthly garbage collection fee for residential and those commercial businesses that use city solid waste services. Interfund transfers have increased due to increased transfers for general and administrative costs from the Water-Sewer and Electric funds

EXPENDITURES

Personnel Services include salaries, wages, and benefits. Health care costs and state-mandated retirement and related benefits have increased. Operating Expenditures show a slight 0.9% increase. There is no increase for Street Resurfacing with funding maintained at \$1,000,000. Capital Outlay has decrease slightly, with most needed capital purchases being deferred. The Debt Service decrease of 14.1% reflects the payoff of lease principal and interest for fire equipment purchased in 2008. The increase in interfund reimbursements reflects increases due to new fire equipment proposed to be purchased in fiscal year 2013-2014, plus increased transfers to the Transit Fund, the Special Grants Fund, and the General Capital Projects Fund.

Performance Goals and Objectives

- Efficiently draft minutes from meetings in a timely manner
- Efficiently maintain boards and commissions records
- Review, process and issue permits
- Provide access to the city's official and legislative documents in an efficient and timely manner while maintaining a records management program for the retention and destruction of the city's official records according to the Municipal Records Retention and Disposition Schedule issued by the N.C. Department of Cultural Resources

Performance Goals and Objectives

Goals:

- Address issues which may impede basic human/civil rights by providing services and programming which allow citizens to be educated, to exercise, and to resolve human/civil rights issues
- Support the work of the HP Human Relations Commission by providing staff support to the Commission which reviews human/civil rights issues, provides recommendations to City Council, and implements programming as needed

Objectives:

- Provide core services to support human/civil rights:
 - *Advance fair housing and equal employment practices
 - *Provide mediation services to resolve fair housing and landlord/tenant disputes
 - *Develop and/or implement civic engagement programming and diversity training
 - *Support diversity and multiculturalism training for City departments as requested by HR
 - *Partner with community groups, NGOs, and government entities on human/civil rights issues
 - *Supply the framework and support for City-wide Title VI compliance

HUMAN RELATIONS

- Provide staff support for Commission initiatives:
 - *Conduct outreach
 - *Review appealed fair housing decisions
 - *Listen to citizen's concerns
 - *Promote goodwill among all people in greater High Point

Mission Statement: The Human Resources Department will be totally dedicated to our mission of making High Point the single most livable and prosperous community in America by unselfishly serving the public and our employees. We will deliver excellent services that have a significant impact on making people's lives happier and more secure. We are committed to the fair, honest, and professional treatment of all individuals and organizations with which we work. We will foster an organizational environment which promotes creativity and possibility thinking. We intend for our work to be satisfying, productive, and challenging. We support an atmosphere that encourages intelligent risk-taking without fear of failure. We believe that our employees develop a commitment to excellence when they are directly involved in the management of their areas of responsibility. This team effort maximizes quality results, minimizes costs, and allows our employees the opportunity to have authorship and integrity in their accomplishments. We will hire above average people who are willing to work for excellent results. In exchange, we are committed to the development of our good people by identifying, cultivating, training, rewarding, retaining and promoting those individuals who are committed to moving our organization forward.

HUMAN RESOURCES

Performance Goals and Objectives

Goals:

- To help supervisors and employees be more effective in performing their jobs
- To develop and implement policies and procedures to ensure compliance with federal, state and local laws as well as the City's Personnel Resolution
- To recruit and select qualified applicants in order to maintain adequate staffing levels for City departments
- To promote a healthier workforce
- To promote a safe work environment and to ensure compliance with the OSHA
- To provide a safe work environment for City employees and to protect the public by striving to achieve an alcohol and drug-free workplace

Objectives:

- To offer professional training and career development
- To investigate employee grievances or complaints
- Advertise, recruit and fill vacant positions
- To provide and promote involvement in an employee wellness program
- To identify and abate workplace hazards
- To administer drug and alcohol testing program in compliance with the Drug-Free Workplace Act, the Federal Transit Authority of the US DOT rules and City of High Point Substance Abuse Policy

HUMAN RESOURCES

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of fourteen cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Human Resources are indicated. For comparison, group averages and two cities geographically similar have been shown.

Key Performance Measures

Efficiency Measures relate cost of resources consumed to the output generated.

Effectiveness Measures relate the quality of performance or the degree of achievement.

HUMAN RESOURCES

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- The Holiday Bonus was given in fiscal year 2012-2013, resulting in the processing of 1,244 bonus payments at a cost of approximately \$203,033.
- On November 21, 2012, City Council approved a group health and dental insurance contract renewal with CIGNA for the period of April 1, 2013 to March 31, 2014. The data projected for fiscal year 2013-2014 reflects the increase in premiums in this new contract.

FINANCIAL SERVICES

DEPARTMENT SUMMARY

	Accounting Unit #	2011-2012 Actual	2012-2013 Budget	2012-2013 Estimated	2013-2014 Proposed	2013-2014 Adopted
Administration	101221	758,437	831,175	699,765	830,128	
Full-time Positions		3	3	3	3	

Mission Statement: The mission of the Financial Services Administration division is to provide a centralized resource for the City's financial affairs, including establishing and maintaining the City's fiscal policies and procedures; coordinating and managing the City's capital projects and debt management programs; providing an internal audit function to safeguard assets and assist with operational efficiencies and compliance with City policies, federal and state laws, and administrative regulations; and coordinating the efficiency and effectiveness of other divisions within the Financial Services Department.

Accounting	101222	539,312	508,736	504,736	514,853	
Full-time Positions		7	7	7	7	

To provide accurate and timely accounting for all financial transactions while following the standards established by applicable regulatory boards as well as the Local Government Budget and Fiscal Control Act. The Accounting Division's scope of services includes general accounting, accounts receivable, capital asset accounting, and payroll and grants management.

Treasury Services	101223	242,677	251,514	252,285	257,706	
Full-time Positions		3	3	3	3	

To provide outstanding customer service to the City's departments and external vendors, and to ensure timely and accurate payment of the City's financial obligations through our Accounts Payable team. Our Treasury mission is to maximize investment opportunities, to increase investment income and help reduce the need for tax and rate increases to our customers. The Treasury Services Division also includes the budgeting, reporting cost and premium payments for the City's liability insurance.

Purchasing	101224	160,130	219,285	200,208	232,474	
Full-time Positions		3	3	3	3	

To provide the City's departments and divisions with professional services and support necessary for the procurement of quality goods and services needed for their successful operation. To encourage an atmosphere of fairness, honesty and integrity in dealing with CHP staff, suppliers and citizens.

Performance Goals and Objectives

Goals:

- Identify City issues, research business processes and technologies
- Provide professional support services and training
- Improve vendor relationships

Objectives:

- Negotiate the best possible price for the systems we purchase
- Ensure that all project-related items are completed on time and on budget
- Maintain 99% uptime for all supported systems
- Conduct training classes and labs on supported software.

SYSTEMS PROJECT ADMINISTRATION

Key Performance Measures

	<u>Actual FY 2012</u>	<u>Actual through Dec-2012</u>	<u>Projected FY 2013</u>
Effectiveness:			
Achieve 25% cost saving on quoted vs. contract pricing	72%	67%	63%
Meeting project delivery timelines 100% of the time	100%	106%	73%
Efficiency:			
Achieve 99% or better uptime for systems supported	97.8%	99.8%	97.8%
Increase training on supported programs by 100%	100%	60%	100%

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

Successfully negotiated the contract for Laserfiche Imaging resulting in saving 40% which represents a savings of \$300,000.

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of thirteen cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Police Services are indicated. For comparison, group averages and two cities with similar populations have been shown.

POLICE

Key Performance Measures

Efficiency Measures relate cost of resources consumed to the output generated.

Effectiveness Measures relate the quality of performance or the degree of achievement.

POLICE

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Crime Reduction Percentage Change 2011 to 2012:

Part I Crimes (Murder, Rape Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft and Arson) decreased 12.79% from the previous year. That also marks the fifth year in a row Part I Crimes decreased, We have not seen more than a three year in a row decrease in modern record keeping. These reductions are very significant.

Part II Crimes (Simple Assault, Sex Offenses, Disorderly Conduct, Vandalism, Gambling, Drug Violations, DWI, Fraud/Forgery, Embezzlement, etc.) decreased 4.44% from last year as well.

- 2012 was the first year the Offender Focused Domestic Violence Initiative was fully implemented. This initiative is the first one of its kind in the country. We contacted 673 offenders at various levels giving them a warning and putting them on notice they were on a watch list. Only forty reoffended after receiving notice. That is a 6% recidivism rate. Nationally domestic violence offenders average 30% recidivism or more.

- High Point was a top twenty finalist for the Bloomberg Mayors Challenge, selected from more than 300 applications nationwide.

- Gretta Bush, President of High Point Community Against Violence and retired Chief Jim Fealy received the 2012 L. Anthony Sutin Civic Imagination Award given by the Department of Justice, Office of Community Oriented Policing Services (the COPS Office).

- HPPD launched a metal recyclers initiative to better track offenders who steal copper and other valuable recyclables. During the year our metal thefts dropped 47%.

- In 2012 we joined a newly formed DWI taskforce to address drunk driving, seatbelt use and other traffic concerns. High Point Police, Guilford County Sheriff's Office and the Greensboro Police Department each placed two officers on the taskforce. Since Oct 2012 they have made 77 DWI charges and 105 Seatbelt charges.

Performance Goals and Objectives

Goals:

- Provide a wide range of recreational opportunities at a high level of quality
- Collect 75% of operating costs at City Lake Park
- NC Wildlife Resources Commission rod loaner program
- To operate High Point Youth Council
- Maintain or increase attendance for Special Population Programs

Objectives:

- Revenue collected; percentage self-sustaining
- Have ten rod and reels available for use
- To increase golf play at Oak Hollow Golf Course
- Provide a wide variety of educational, social, recreational and service projects to area high school students through the High Point Youth Council
- Respond to calls for service quickly
- To maintain or increase program attendance in all programs including Special Populations, Special Olympics and Miracle League
- To collect revenue and recover expenses for Senior Center
- To recruit volunteers to offset costs of providing athletic programs

Performance Goals and Objectives

Goals:

- To provide and maintain access to computers and computer peripherals for High Point residents and library staff in accordance with state guidelines
- To maintain a current and relevant collection of library materials in quantities to meet current and emerging needs of library customers
- To provide quality programs for children which will promote cognitive development, reading readiness and nurture the joy of life-long reading and learning
- Provide information, materials, training to public
- Increase museum-historical park visits and program attendance

LIBRARY

Objectives:

- To provide one IT staff per 50 computers and peripherals
- To meet state guidelines by providing and maintaining access to a minimum of one computer for every 2500 High Point residents
- To increase spending on materials to 12% of budget.
- To update 15% of the collection annually
- To present cognitive development programs for infants; programs in childcare homes and centers; reading enjoyment programs for elementary ages; and reading readiness programs for preschoolers
- To answer research inquiries
- Increase visits to museum-historical park 25% annually

Children's Services staff			
Number of reference questions answered per FTE reference	4,645	2,036	4,645

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- The library's Readers Services Division co-sponsored a National Conference for Writers called Writers' Police Academy in conjunction with Guilford Technical Community College Department of Criminal Justice and area law enforcement agencies. Over 150 people from throughout the United States as well as local people attended the 3-day event, which featured *New York Times* bestselling author Lee Child as the keynote speaker.
- Research Services staff assisted over 500 individuals with employment or job-assistance questions and 163 students participated in library-sponsored career development classes. In addition, 197 attended business- or non-profit-related classes at the library in partnership with GTCC and the Guilford Non-Profit Consortium.
- Over 8,300 children participated in the 588 programs offered by the Children's Division in the 2012 Summer Reading Program.
- Circulation of the library's digital collection increased almost 40%.

THEATRE

Performance Goals and Objectives

Goals:

- Increase usage by developing new clients
- Create support of facility renovation
- Hold public meetings and discussions
- Improve communications with constituents
- Develop Friends of Theatre fundraising capability
- Increase external Box Office clients

Objectives:

- Develop new clients
- Meet regularly with Theatre Advisory Commission
- Advisory board ask council for renovation time frame
- Increase Friends fundraising activities
- Increase external Box Office clients

Key Performance Measures

	<u>Actual</u> <u>FY 2012</u>	<u>Actual</u> <u>through</u> <u>Dec-2012</u>	<u>Projected</u> <u>FY 2013</u>
Workload:			
Number of inquiries received from various sources	15	13	15
Number of fundraising activities/events	4	3	4
Increase external box office clients	300	200	300

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Our concession area showed marked growth in sales from \$0.23 per person to \$0.92 per person sales, a direct correlation to moving the concession area.
- Overall appearance of the venue due to the increase in lighting and painting has made it more appealing for gallery artists, and public/private patrons alike.
- Venue and Terminal usage reports show an increase of nearly 15% through mid-third quarter 2012-2013.
- Our PassPort to Entertainment Brochure won first place at the ADDY awards.
- Fundraising and gifts to the Friends of the Theatre generated nearly \$20,000.

ECONOMIC DEVELOPMENT

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

•3,402 jobs were announced/created in Calendar Year 2012

- The High Point EDC reported that 3,402 jobs were created or announced in High Point in 2012.
- In 2012 according to the Piedmont Triad Partnership, High Point had three of the top five largest job announcements in the Piedmont Triad region--60%--although the city covers only 0.92% of the geographic territory and 6.36% of the population of the 12-county region.
- According to PTP's data, High Point had nine out of the 47 job total announcements (19 percent).

•6th year in a row: Top 10 national ranking for Greensboro/High Point MSA

- In March 2013--for Calendar Year 2012--*Site Selection Magazine* announced that for the sixth year in a row, the Greensboro/High Point Metropolitan Statistical Area earned a Top 10 national ranking for attracting new industry, among similar-sized communities.
- The MSA--composed of Guilford, Randolph, and Rockingham counties--ranked #6 in the nation, based on the number of corporate real estate projects of \$1 million or greater in 2012. For two of those five years, the region impressively ranked #1.
- High Point had 35% of the MSA's projects.

•High Point's MSA earns southern economic development recognition

The Greensboro-High Point Metropolitan Statistical Area has been named "Mid-Market of the Year" for 2012 by *Southern Business and Development* magazine. The publication's designations are based on announced projects that exceeded 200 jobs or \$30 million in capital investment.

•5th year in a row: High Point earns competitive business award of excellence

- ElectriCities, for the fifth year in a row, presented the City of High Point with its Public Power Award of Excellence.
- High Point won in the "competitive business environment" category due to the City's economic development successes and attributes. The award recognizes the City of High Point and its High Point Economic Development Corp. for demonstrating "initiative in economic development efforts, including recruitment leading to job creation and increased electric load."
- High Point is a proud member of ElectriCities, North Carolina's \$1.2 billion public power service corporation serving 500,000 retail customers in 51 communities.

PLANNING AND DEVELOPMENT

DEPARTMENT SUMMARY

PLANNING AND DEVELOPMENT

Performance Goals and Objectives

Goals:

- Policy Advisory Goal - To provide policies that serve as a guide and framework for the development of the community, and that together create a shared comprehensive plan for the community, which is used as the basis for making decisions that shape the community
- Development Review Goal - To provide timely, dependable and accurate reviews of all development proposals, and to ensure the proposals comply with adopted policies and rules
- Regulatory Goal - To administer rules that improve the quality of development and property, that effectively protect the public health and safety, that are consistent with adopted policies and practices, and that are applied in a fair, practical and consistent manner

Objectives:

- Develop and update planning and development policies to reflect changes in development patterns and the preferences of the community, as identified by the City Council, city boards and commissions, and the public
- Manage the development review process
- Administer the city's adopted planning and development policies and regulations, to promote high quality development, and to ensure clean, healthy, safe, livable neighborhoods

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
Workload:			
Number of comprehensive planning projects in progress	9	4	5
Number of site plans and subdivisions reviewed	264	324	500
Number of zoning cases reviewed	25	14	30
Number of housing code violations corrected	197	129	250
Effectiveness:			
Percent of comprehensive planning projects approved or adopted	100%	100%	100%
Percent of site plan and subdivision reviews completed on schedule	85%	76%	80%
Percent of zoning cases with action consistent with staff	92%	100%	90%
Efficiency:			
Number of comprehensive planning projects managed per FTE	4.5	2.66	3.33
Number of site plans and subdivisions reviewed per day/FTE reviewer	0.70	2.07	2.00
Number of zoning cases reviewed per month per FTE planner	2.08	2.33	2.50
Number of permits issued per day per FTE permit specialist	14.8	16.49	16.0
Number of local code violations cited per day per FTE inspector	2.63	2.5	2.8

PLANNING AND DEVELOPMENT

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of nine cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Building Inspections are indicated. For comparison, group averages and two cities with similar populations have been shown.

Key Performance Measures

Workload Measures indicate the amount of work performed or amount of services received.

Effectiveness Measures relate the quality of performance or the degree of achievement.

PLANNING AND DEVELOPMENT

Efficiency Measures relate cost of resources consumed to the output generated.

PLANNING AND DEVELOPMENT

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- In the policy advisory area, projects in the fiscal year 2012-2013 work program include the Thomasville annexation agreement, the N. Main Street Neighborhoods National Register District, Planning Process Assessment, and Piedmont Triad Sustainable Communities Project. With the elimination of a project planner position, the capacity to manage comprehensive planning projects has decreased from 9 projects in fiscal year 2011-2012 to 4 projects in fiscal year 2012-2013.
- In the development area, work in the fiscal year 2012-2013 work program includes the UPDATE High Point project (development ordinance re-write) and the implementation of the Land Development software system. In addition work continues on city-initiated street abandonments and revisions to the City's development review process in conjunction with the installation of the land development system. Due to the eliminated development review planner positions and the two large projects, the resultant work shifts have resulted in an increased work load on the development plan reviewer and increased review times for some plans.
- In the building code administration area, permits are up 17% and commercial plan reviews are up 12% for first six months of fiscal 2012-2013 as compared to the same six-month period in fiscal year 2011-2012. Construction inspections remain steady with approximately 9 construction inspections conducted per day per inspector. In addition, construction inspectors are still involved in enforcing public nuisance code and conducting zoning inspections, in addition to conducting home energy audits. Staff is insuring that 95% of construction inspections are conducted within a 24-hour period by utilizing overtime as necessary.
- In the local code enforcement program, housing code violations corrected and public nuisances abated are up 10% for the first six months of fiscal year 2012-2013 as compared to the same six-month period in fiscal year 2011-2012. Also, there has been an increase in the number of housing code violations corrected within 180 days of the initial investigation.

TRANSPORTATION

Performance Goals and Objectives

Goals:

- Identify and replace 100% of expired signs and posts annually
- Identify and replace 100% of worn pavement markings annually
- Provide visibility to 100% of signs annually
- Provide traffic signal maintenance to COHP signal system
- Replace signal mast arms in all downtown intersections that are part of the streetscape project
- Maintain computer signal system network & database management for department

Objectives:

- Ensure 95% of all goals are met
- Provide traffic signal maintenance with as little inconvenience as possible
- Complete preventive maintenance on 213 intersections
- Evaluate signal time at each signalized intersection every 18 months
- Keep signal system online 100% of the time

Key Performance Measures

	Actual	Actual	Projected
	<u>FY 2012</u>	<u>through</u> <u>Dec-2012</u>	<u>FY 2013</u>
Workload:			
Signs and posts replaced	820	432	900

PUBLIC SERVICES

Performance Goals and Objectives

Goals:

- Provide weekly solid waste collections and bi-weekly recycling
- Perform preventive and routine streets and sidewalk maintenance

Objectives:

- Maintain a 95% normal pick-up day rate
- Maintain a customer satisfaction rate of 99%
- Maintain 100% of streets with 85% or better PCR
- Maintain 155.6 miles of City sidewalk

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
Workload:			
Tons of household waste (refuse) collected	25,141	14,601	29,000
Tons of recyclables collected	7,616	4,362	8,700
Tons of yard waste collected	4,020	2,548	5,095
Tons of asphalt used for resurfacing repair (City)	3,530	912	3,530
Sidewalk replaced in square yards	773	54	773
Effectiveness:			
Percent of solid waste collection customer satisfaction	99%	99%	99%
Number of missed collections	106	132	300
Efficiency:			
Yard waste cost per collection point	\$50	\$42	\$50
Recycling cost per collection point	\$31	\$26	31
Cost per lane mile for resurfacing (City)	\$64,670	\$87,731	\$64,670
Sidewalk replacement cost per square yard	\$76	\$107	\$76

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of fourteen cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Residential Refuse, Asphalt Maintenance, Household Recycling, and Yard/Leaf Collection are indicated. For comparison, group averages and two cities with similar populations have been shown.

PUBLIC SERVICES

Key Performance Measures

Workload Measures indicate the amount of work performed or amount of services received.

PUBLIC SERVICES

Efficiency Measures relate cost of resources consumed to the output generated.

PUBLIC SERVICES

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Cost per lane mile for resurfacing (City forces) increased significantly. This is a result of very small projects using an average of 50 tons each.
- During the first half of this year, more emphasis was put on milling of asphalt roadways prior to resurfacing. Note that workload quantities increased dramatically.
- Mild winter conditions resulted in fewer pothole repairs.

SPECIAL APPROPRIATIONS

GENERAL DEBT SERVICE FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

Of the total adopted property tax rate of \$.675, the Debt Service Fund tax rate includes \$.034 to fund the 2004 bond authorization approved by High Point voters in the 2004 bond referendum. The increase in Transfers-Other Funds represents the transfer from the General Fund for future debt service for Fire Truck lease financing.

EXPENDITURES

Principal and interest payments are declining due to bond refundings and the final payment of some General Obligation bond issues and long-term loans. This reduction is offset by planned lease financing of fire trucks and theatre equipment in FY 2013-14.

GENERAL CAPITAL PROJECTS FUND

The General Capital Projects Fund is used to account for pay-as-we-go General Fund capital projects. Financial resources for these projects are to be used for the acquisition or construction of major capital facilities, other than those financed by the enterprise funds. Long-term general capital projects which are generally financed by general obligation bonds can be found in the Capital Improvement Program section of this document.

WATER AND SEWER FUND

The Water and Sewer Fund operations come under the direction of the Public Services Department. This fund is used to account for the provision of water and sewer services to the residents of the City and some County residents. All expenses necessary to provide such services are accounted for in this fund as well as debt service on water-sewer bond issues.

WATER-SEWER FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

Fund Balance appropriation is increased \$83,514 over the 2012-2013 budget. For the second consecutive year, no water and sewer rate increase is included in the Water-Sewer Fund budget, although a mid-year rate increase may occur to coincide with the next revenue bond issue. Water-Sewer Operating revenue has increased due to slight growth in capacity. Intergovernmental revenues include Treasury Subsidy reimbursements from the federal government for non-tax exempt revenue bonds on Revenue Bonds issued in 2010, and this subsidy is projected to decrease due to the Federal government sequester.

EXPENSES

Personnel Services include salaries, wages, and benefits. Water-Sewer operating expenses have increased by \$680,033 due to various needed capital outlay equipment and tools that have been deferred for several years, and increases in fuel, safety expenses, and vehicle maintenance costs. Debt service has decreased by \$966,840 due to bonded debt being paid off, and the effect of the refundings that were completed in 2012. The transfer to the General Fund has increased by \$369,509, and water and sewer capital projects have increased by \$440,000, due to the increase in obsolete water and sewer pay as you go.

Mission Statement: The purpose of the Public Services Water and Sewer Administration group is to oversee the divisions that provide the citizens and businesses of High Point with high quality drinking water and a system to collect and treat wastewater and to protect the environment through effective wastewater treatment in accordance with the rules and regulations of the state and EPA. Administration manages the divisions of water supply, treatment, and distribution as well as sewer collection and wastewater treatment to ensure that all services are provided effectively and efficiently according to city policy.

Performance Goals and Objectives

Goals:

- Ensure safe and compliant water reclamation with an optimized budget (Eastside)
- Perform quality control tests (Westside)
- Perform preventive maintenance and react to emergency situations (Mains)
- Monitor significant industrial wastewater users
- Ensure cost efficient, safe, compliant and reliable equipment maintenance
- Respond to water complaints
- Ensure safe, compliant and reliable solids disposal

Objectives:

- Treat 6,420,000 units of wastewater (Eastside)
- Perform 196 quality control tests (Westside)
- Respond to 100% of sewer emergencies within two hours
- Perform 32 random significant industrial user inspections
- Maintain per unit cost for water (.18)
- Respond to 100% of water complaints within 24 hours
- Remove 2,500 tons of ash

WATER AND SEWER FUND

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
<u>Workload:</u>			
Units of wastewater treated (Eastside)	6,289,200	3,196,122	6,287,200
Number of quality control tests (Westside)	196	196	196
Number of significant industrial user monitoring and inspections	32	28	59
Number of quality control tests (Ward)	61,656	26,548	61,656
Tons of ash removed (Residuals)	1,967	1,393	2,500
<u>Efficiency:</u>			
Percent of sewer emergency calls responded to within two hours	100%	100%	100%
Water complaints responded to within 24 hours	209	100	200
<u>Effectiveness:</u>			
Cost per unit for water	\$0.20	\$0.16	\$0.18

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. Water Services was added to the study beginning in 2006-2007. Sewer Services was added this fiscal year 2012-2013. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of eleven cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Water Service are indicated. For comparison, group averages and two cities with similar populations have been shown.

Key Performance Measures

Workload Measures indicate the amount of work performed or amount of services received.

WATER AND SEWER FUND

Efficiency Measures relate cost of resources consumed to the output generated.

Effectiveness Measures relate the quality of performance or the degree of achievement.

WATER AND SEWER FUND

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Special emphasis continues to be placed on safety and maintaining a safe work environment and instilling safety attitudes and work habits among all Eastside staff. Management and staff also strive to maintain NPDES permit compliance while also encouraging operator growth and education through State certification advancement.
- Have changed operation at Westside to require use of potable water rather than service water.
- Sewer Services was a new service area added to the benchmarking project beginning with FY2011-2012. The goal is to produce reliable performance and cost data for comparison to other municipalities and facilitate service improvement.

ELECTRIC FUND

The Electric Fund is used to account for the Electric Operations Department as well as the Customer Service Department. Collectively, these departments provide electric services and simple information access to the residents and businesses of the City of High Point. All expenses necessary to provide such services are accounted for in this fund.

ELECTRIC FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

The 2013-2014 budget includes a Fund Balance appropriation of \$1,834,633. The Electric Fund budget includes a 4.9% retail electric rate increase effective July 1, 2013 to partially offset the 5.0% increase in wholesale power costs.

EXPENSES

Personnel Services include salaries, wages, and benefits. No salary increase has been included in the 2013-2014 adopted budget. Operating Expenses increased by the 5.0% or \$4,714,106 Wholesale Power rate increase, offset by a \$2,370,722 decrease to capital projects.

CUSTOMER SERVICE

The Customer Service Department will serve as the catalyst to provide simple and easy access to our customers as they request information and/or services and utilities from the City of High Point. We will work to blend the needs of our customers and the operation of City departments to broker a positive response for the purpose of creating healthy families, safe and livable neighborhoods and prosperous business.

Performance Goals and Objectives

Goals/Objectives:

- Read all meters each month with an accuracy of over 99.98%
- Provide one-stop shopping for City customers
- Accuracy in posting utility payments; cashier overages/shortages below \$500
- Maintain or increase a collection rate of 99.8%
- Increase Energy Conservation Awareness through education programs
- Provide IVR and Internet self service
- Maintain residential meters by changing out 1200 water meters ten years of age or older
- Investigate suspicious activity and meter tampering

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
Workload:			
Number of meters read	1,051,830	524,796	1,050,830
Number of walk-in customers assisted	26,871	15,686	30,000
Number of calls answered by Customer Service	259,133	181,994	345,000
Number of energy audits performed online	29	7	40
Number of customers visited for energy audits	292	114	240
Number of customers paying utility bills via internet	62,827	33,524	67,000

Number of internet requests to purchase garbage toters	99	47	100
Number of ten-year old residential water meters changed out	900	306	1,100
Effectiveness:			
Number of meter reading adjustments	181	136	200
Cashier amounts over/short	-\$575	-\$188	-\$350
Number of new water meters installed within two days	262	55	125
Number of theft investigation cases	482	256	510
Efficiency:			
Percent of meter reading quality	99.98%	99.98%	99.98%
Percent of calls answered by the fourth ring	70%	51%	65%
Percent of Utility dollars collected	99.59%	99.76%	99.74%

ELECTRIC OPERATIONS

The Electric Department strives to maintain and improve efficiency of the department including but not limited to quality street lighting, outdoor lighting, substation and line maintenance as well as to provide new facilities for electric system growth. Our mission is to promote a prosperous community for the benefit of the City of High Point residents.

Performance Goals and Objectives

Goals:

- Maintain a reliable, efficient power distribution system
- Reduce power outages through right-of-way maintenance
- Test all meters over a six-year period
- Provide a safe and reliable work environment

Objectives:

- Maintain the electric system with a power factor above 96%
- Install new and repair existing street and area lights
- Test 6,000 existing meters per year
- Install 6,000 Automated Meter Reading meters
- Maintain system losses below 7%
- Clear right of way
- Regularly inspect station facilities

PARKING FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

There is a Fund Balance appropriation of \$43,296 in the Parking Fund for the 2013-2014 budget. There is a slight decrease of \$24,000 in operating revenue, and no change to the interfund transfer from the General Fund for 2013-2014.

EXPENSES

Personnel Services include salaries, wages, and benefits. Operating Expenses show a slight 1.5% increase, and Capital Outlay has increased for necessary maintenance to the various facilities.

PARKING FACILITIES

DEPARTMENT SUMMARY

Mission Statement: The Parking Facilities Division is responsible for providing and maintaining safe, off-street parking facilities to the citizens and visitors to the City of High Point. The fund operates under the direction of the Director of Transportation.

PARKING FACILITIES

Performance Goals and Objectives

Goals:

- To maintain the appearance and operation of each facility to provide a pleasant and safe environment for citizens, visitors and parking staff

Objectives:

- To maintain the appearance, operation and record processing of each facility
- To ensure rental of spaces, greet customers, collect parking fees, keep accurate records of facility usage, and administer and verify parking cards to necessary patrons
- To ensure cleanliness, maintenance of lighting fixtures and initial maintenance of parking gate equipment of each facility

Key Performance Measures

	<u>Actual FY 2012</u>	<u>Actual through Dec-2012</u>	<u>Projected FY 2013</u>
Workload:			
<u>Average number of hourly customers (monthly)</u>			
- High and West Commerce parking decks	731	765	731
- Best Western parking deck	855	665	700
- Broad St. parking deck	375	446	375
<u>Number of monthly rental customers</u>			
- High and West Commerce parking decks	530	530	530
- Best Western parking deck	30	38	30
- Broad St. parking deck	40	40	40

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Companies are cutting because of budgets.
- Natuzzi had lay-offs, which cut the number of parkers. Also, some individuals did not renew spaces. Loss of attendant has limited hours an attendant is working at this facility.
- The hotel sold and the new owner is remodeling, which has reduced events going on at the hotel. Showplace rented out one side of the lower level's permanent office space, which has reduced events. The hotel seems to be scheduling more events for the future, which may increase parking from events and hotel guests.

LANDFILL FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

Fund Balance appropriation increased over the 2012-2013 budget to fund the automation project for the Material Recovery Facility in the Landfill Capital Projects. Operating Revenues are projected to increase \$75,000 or 1% due to the increase in recycling sales. Miscellaneous Revenues are projected to increase slightly in Interest on Investments.

EXPENSES

Personnel Services include salaries, wages, and benefits. Operating Expenses are estimated to increase due to increased costs for safety equipment (\$39,000), fleet and fuel charges (\$47,000), and an increase in Claims and Judgments related to the Seaboard Chemical case (\$63,000). Landfill Capital increased due to the additional \$3,750,000 in funding for the automation at the Recycling Facility.

Mission Statement: The Landfill Division will provide a safe and equitable means of solid waste disposal for its customers while complying with all state and federal rules or regulations. The Material Recovery Facility will provide the citizens of High Point with a material recovery facility which properly processes, separates, package and ships an estimated 6,000 tons annually of co-mingled recyclables and provides cardboard recovery for bi-annual Furniture Markets.

LANDFILL FACILITIES

Performance Goals and Objectives

Goals:

- Provide disposal for municipal solid waste (MSW)
- Pursue collection of tip fees to ensure earned revenue
- Process recyclables to conserve landfill space
- Promote awareness of City recycling program in community

Objectives:

- Maintain a 95% collection rate for MSW
- Process and maintain 90,000 tons of municipal solid waste
- Process and sell 13,000 tons of yard waste
- Process 8,000 tons of recyclable materials
- Maintain an 70% efficiency rate
- Provide 500 recycling program presentations

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
Workload:			
Number of tons of municipal solid waste received	87,479	49,792	87,479
Number of tons of yard waste received	13,024	7,271	13,024
Number of tons of recycling material received/processed	8,198	4,000	8,016
Number of recycling presentations	68	36	72
Efficiency:			
Percent collection rate (tip fees)	95%	95%	95%
Percent of recyclables recovered	66%	60%	67%
Effectiveness:			
Dollar amount of recyclable material sold	\$909,046	\$335,427	\$750,000
Cost per ton of processing recyclables	\$221	\$200	\$243

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Keep High Point Beautiful has reformed and has an active board.
- The MRF Renovations Study is complete. Facility renovation options are being evaluated.

STORMWATER FUND REVENUE & EXPENDITURE NOTATIONS

REVENUES

Stormwater fees are projected to increase slightly for fiscal year 2013-2014. The source of the increase in Interfund Transfers is due to an increased transfer to the General Debt Service Fund to fund the Stormwater Fund's 2004 General Obligation Bonds. There is also an appropriation of \$3,558,102 in retained earnings to fund major capital stormwater projects using cash funding instead of bonded debt.

EXPENSES

Personnel Services include salaries, wages, and benefits. The reduction in Operating Budget represents a decrease in Consulting & Professional Fees. Capital Outlay increased \$3,740,000 for Phases 1 and 5 of the Jacobs Place project. Debt Service increase of \$86,420 is due to increasing debt service related to refunding and the short-term increase in payments. The Interfund Transfers decrease is due to a reduction in the transfer to the capital projects fund.

Performance Goals and Objectives

Goals:

- Improve and maintain stormwater drainage system
- Make timely improvements on public and private property
- Maintain a safe environment for employees
- Provide a stormwater management program that complies with MS4 permit

Objectives:

- Provide 40 hours per employee of training/education annually
- Respond to complaints within 14 days of request
- Account for the percentage of stormwater drainage system repaired or replaced
- Sweep 5,000 curb miles of streets
- Comply with six minimum measures of HP MS4 permit requirements

CENTRAL SERVICES FUND EXPENDITURE NOTATIONS

EXPENDITURES

Computer replacement decreased because there is no transfer to the General Fund in the 2013-2014 budget. Facilities service has decreased because of a new policy to decentralize costs of the various utilities to the departments actually incurring the expense. Fleet Services has reduced in two areas. Fuel revenues and fleet overhead are lower based on the recent history in those accounts. Fuel contingency decreased where budget was put to balance the 2012-2013 budget.

Performance Goals and Objectives

Goals:

Maintain the 800-MHz radio system at 100% efficiency

Objectives:

Routinely check operability of primary and backup systems

Key Performance Measures

	Actual FY 2012	Actual through Dec-2012	Projected FY 2013
Workload:			
Number Quantars 800-MHz base stations maintained	40	40	40
Number of UPS back up power testing quarterly	26	13	26
Number of XTL mobile radios maintained	430	430	430
Efficiency:			
Percent of time radio system is functional	100%	99.9%	100.0%

RADIO REPAIR SHOP

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Maintained our communications network at 100% peak efficiency.
- Core Switch - The City will upgrade its radio system from a 4.1 to a 7.X system because the 4.1 version will no longer be supported after 2015. The upgrade requires a core switch at a cost of approximately \$4.5 million. The City was able to partner with Guilford County/Greensboro and share the cost of the core switch which saved the City approximately \$3 million and improves interoperability among the two systems and their respective users.

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

•Citrix Implementation – the City of High Point implemented a Citrix system to allow for easier remote computing and a more secure virtual desktop environment. Upon the successful deployment of Citrix the City will be able to reduce the cost of computer replacement by deploying thin clients at a cost of approximately \$500 per unit versus the usual cost of \$2000 per unit for a PC.

FACILITY SERVICES

DEPARTMENT SUMMARY

Performance Goals and Objectives

Goals:

- Provide maintenance and custodial support for the Municipal Office Building, Green St. Municipal Operations Center, Kivett Operations Center, Police Dept., Radio Building, Library and Museum
- The Facility Services Department will strive to continually enhance service levels in order to provide a clean and comfortable work environment for city employees
- Continued project management of construction projects with an emphasis on less than 5% change orders without affecting project quality

FACILITY SERVICES

Objectives:

- Continue 30 minute or less response time for emergencies by using cell phones and pagers to reduce response time
- Project management of construction and renovation projects by working closely with architect, contractor, and end user to provide quality functioning facilities
- Zero open work orders at end of fiscal year via close management of the work order system
- Cross-train technicians by using building specific preventive maintenance programs and involving all maintenance staff when unique building system/issues arise. Dispatch service work orders so that technicians deal with all elements of building systems and facility maintenance

Key Performance Measures

	<u>Actual FY 2012</u>	<u>Actual through Dec-2012</u>	<u>Projected FY 2013</u>
Workload:			
Number of labor hours on construction/retro fit projects	2,000	900	1,800
Number of service calls received	1,600	900	1,560
Number of hours performed on preventive maintenance on mechanical and safety equipment	400	200	400
Efficiency:			
Percent of emergency requests responded to in 30 minutes or less	100%	100%	100%

FLEET SERVICES

Benchmark Comparisons for Fiscal Year 2011-2012

Beginning in fiscal year 2000-2001, the City of High Point began participating in the North Carolina Local Government Performance Measurement Project. Fleet Maintenance was added to the study beginning in 2001-2002. In fiscal year 2012-2013 data was collected for the previous fiscal year 2011-2012. A total of fourteen cities participated in the project in an effort to produce comparable and reliable performance indicators. A sampling of some of the measures for Fleet Maintenance are indicated. For comparison, group averages and two cities with similar populations have been shown.

Key Performance Measures

Workload Measures indicate the amount of work performed or amount of services received.

Effectiveness Measures relate the quality of performance or the degree of achievement.

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- Projected fourth straight year of reduced fuel usage over previous period.
- Over \$2.6 million in revenue generated from online auctions since August 2008.
- Received the North Carolina Department of Labor Safety Award for the second year in a row.

ECONOMIC DEVELOPMENT

Full-time Positions		2	2	2	2	

The Special Grants Fund accounts for the receipt and disbursement of all grants, including federal, state and local grants or entitlements but excluding the Community Development Block Grant. The budget appropriation represents that portion of existing grants which were not fully expended in the prior fiscal year and which will be reestablished in the current year and also allowance for grants that will be received during the current year.

BUDGET SUMMARY	2011-2012 Actual	2012-2013 Budget	2012-2013 Estimated	2013-2014 Proposed	2013-2014 Adopted

Miscellaneous Revenues	10,013	-	-	-	
Total Special Grants Fund	3,844,113	3,146,329	2,921,942	3,694,955	

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

The increase of \$548,626 above the fiscal year 2012-2013 adopted budget in this fund is mainly for the new Fire Traffic Signal Preemption grant in the amount of \$300,000, a new Justice Assistance Grant (JAG) for in-car cameras for patrol cars for \$246,000, offset by changes in funding in various other grants.

COMMUNITY DEVELOPMENT FUND

The Community Development Fund is used to account for the receipt and program disbursement of the Community Development Block Grant Program.

REVENUE & EXPENSE SUMMARY

	ORIGINAL 2012-2013 BUDGET	PROPOSED 2013-2014 BUDGET	CHANGE	% BUDGET INC./(DEC.)
REVENUE				
CDBG Entitlement (HUD)	1,060,862	990,240	(70,622)	-6.7%
Home Program (HUD)	455,703	491,870	36,167	7.9%
Neighborhood Stabilization Program Income	-	459,580	459,580	0.0%

Part-time Positions	5	5	5	4

Performance Goals and Objectives

Goals:

- Transport 1,000,000 passenger trips per year (Hi tran)
- Provide service with zero preventable accidents (Hi tran)
- Cover as much cost as possible through passenger fares (Hi tran)
- To meet transportation demands of the elderly and disabled (Dial-A-Lift)
- To efficiently transport trips with available resources (Dial-A-Lift)

MASS TRANSIT

Objectives:

- Increase ridership on fixed route service by 3% each year (Hi tran)
- Achieve an accident rate that is less than 0.2 preventable accidents per 100,000 miles (Hi tran)
- Recover 30% of expenses from passenger fares (Hi tran)
- Have a trip denial rate of less than 2% (Dial-A-Lift)
- Transport at least three trips per revenue hour (Dial-A-Lift)

Key Performance Measures

	<u>Actual FY 2012</u>	<u>Actual through Dec-2012</u>	<u>Projected FY 2013</u>
Workload:			
Number of passenger trips (Hi tran)	900,690	453,823	910,000
Service miles (Hi tran)	469,925	240,578	475,000
Passenger trips performed (Dial-A-Lift)	29,207	14,664	30,000
Effectiveness:			
Preventable accident rate (Hi tran)	2.8	2.49	1.5
Efficiency:			
Fare recovery ratio (Hi tran)	23%	26%	25%
Trip denial rate (Dial-A-Lift)	0%	0%	0%
Passengers per revenue hour (Dial-A-Lift)	2.6	2.8	2.8

BUDGET HIGHLIGHTS & SERVICE LEVEL CHANGES

- The newly-constructed larger Hi tran passenger terminal reopened in February 2013.
- Dial-A-Lift purchased three additional vehicles for a total of six minibuses in service running approximately 175,000 miles a year. The minibuses average 7.5 mpg. The Dial-A-Lift service was previously outsourced but was brought inhouse during fiscal year 2011-2012.
- The fiscal year 2013-2014 budget includes \$75,000 to add to the City's share for the buses' replacement in fiscal year 2016-2017.

FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

Capital Project Definition

The **Capital Improvement Program (CIP)** is a prioritized, multi-year plan for major capital expenditures, such as the construction, reconstruction, renovation or replacement of a public building, facility or major equipment item; the purchase of land, buildings or facilities for a public purpose; studies and surveys leading to such physical improvements or any combination of the above. By providing a planned schedule of public improvements, the program outlines present and future needs and intentions. A capital improvement project should have a cost greater than \$15,000 and a useful life of at least ten years.

Capital Process Description

The City of High Point's capital improvement program is the result of a detailed financial planning process used by City leaders to establish funding priorities of major capital projects. The purpose is to address the City's immediate and long-term capital needs in a conscious effort to best provide services and facilities to the citizens of High Point.

To accomplish this, the CIP process consists of a three-phase mechanism. In the fall of each year, department heads submit a five-year capital plan to the Budget Office for consideration. This requires substantial planning at the department level to identify projects that are deemed necessary to respond to public needs.

A vital segment of the proposal includes a **project financial form** which projects cost estimates as well as the **revenue sources** for the project. Submission of the project's financial information is a fundamental component in coordinating the available resources to fund the project.

The **second phase** of the CIP process includes review of each proposal by the Budget Office. Factors analyzed include:

- The **priority of the project** as defined by City leaders or formal Council policy
- **Feasible funding** sources in relation to the projected timetable
- **Impact** the project will have **on the operating budget and service levels**

The projects are evaluated according to the following criteria:

- Risk to Public Safety or Health
- Deteriorated Facility
- Systematic Replacement
- Improvement of Operating Efficiency
- Coordination
- Equitable Provision of Services, Facilities
- Protection and Conservation of Resources
- New or Substantially Expanded Facility
- Prior Commitment by City Council or Manager

The budget staff compiles a priority list as they relate to the City's overall mission of **"...creating the single most livable, safe and prosperous community in America."** This list of proposed projects is presented to the management team.

The **final phase** consists of compiling the **five-year Capital Improvement Program** for consideration by the City Council as part of the budget review and adoption process. Recognizing that needs and priorities vary from year-to-year, only the **first fiscal year** of the five-year program is considered for adoption. The subsequent four years are used for strategic financial planning purposes.

Capital Improvement Funding

Funding for the capital improvement program varies by fund. In the **General Capital Projects Fund** the majority of the funding comes by transfer from the General Fund.

In the utility funds (Water, Sewer, Electric, Landfill, and Stormwater Funds), capital projects are included within the fund instead of being in a separate fund as is the case with the general capital projects. These utility fund projects are normally funded from operating revenues generated by each fund.

Projects that authorize the construction or acquisition of major capital and are identified to be in effect for the life of the project extending more than one fiscal year are adopted in **Capital Project Ordinance Funds**. Bonds, state and federal grants, or some combination of these normally fund these projects. The uniqueness of these funds is that they do not require re-appropriation each fiscal year and are not part of the regular budget but are adopted separately.

RECOMMENDED CAPITAL IMPROVEMENT PROGRAM SUMMARY

City of High Point Fiscal Year 2014-2018

The capital budget summary **shown below of \$124,337,192 is the first year** of a five-year capital improvement program which is reviewed and updated annually to meet the capital needs of the community. The adopted 2014-2018 Capital Improvements Program (CIP) totals \$688,495,530. This is a \$28,330,744 increase or 4.3% more than the 2012-2013 CIP total of \$660,164,786. The increase is mainly due to several major Stormwater projects being added increasing the total by \$27,742,600; and an increase in the MRF Automation & Upgrade, the planned closure/post-closure of Kersey Valley Landfill phases I-III, the Kersey Valley Road relocation and the Kersey Valley Phase V projects in Landfill totaling \$5,421,000. This increase also includes \$16,981,400 additional funding in Water/Sewer for the City Lake Dam Upgrade and NC 66 W/S Improvements. The increases are offset by reductions in Electric Capital of \$2,413,168 and a reduction in General Capital of \$23,880,940 for prior projects being expended.

Infrastructure improvements remain a top priority of the City's long-term capital planning, as the City of High Point prepares for the present and future challenges of an aging infrastructure, safe water quality and availability of safe waste disposal.

<u>Expenditure By Program</u>		<u>Funding Sources</u>	
	Budget Year 2013-2014		Budget Year 2013-2014

401610 401-Cap Projs-Transportation

Project Summary Form

Requesting Department: 401-Transportation Services Division: Project Number: CIP-00039
 Project Title: Sidewalk Construction
 Project Location: General Project Contact: Mark McDonald/Amandeep Mann Project Photo:

Description:

Construction of sidewalks on City streets based on a priority ranking system that assesses pedestrian needs relative to proximity of existing sidewalks, schools, transit routes, public facilities, and other generators of pedestrian activity.

Justification:

The sidewalks promote safety and mobility by reducing the conflict between vehicles and pedestrians.

Project Summary Form

Requesting Department: 401-Planning & Development Division: Project Number: CIP-00091
 Project Title: GIS Base Mapping Prog (GASB)
 Project Location: General Project Contact: Lee Burnette Project Photo:

Description:

The purpose of the multi-year GIS Base Mapping Program is to update the digital data in the city's Geographic Information System (GIS) primarily as obtained from aerial photography data. Budgeted in 101931-590520 Assigned FB Planning.

Justification:

This program, which has a multi-year funding cycle per project, provides data for current & future GIS applications, including E-911 dispatch; stormwater; fire and police; street atlas; zoning, land use, neighborhood and area plans; capital projects; transportation projects. A new funding cycle began in FY09-10 for the 2014 calendar year project. A GASB #54 project as of 7/1/2011.

401610 401-Cap Projs-Transportation

Project Summary Form

Requesting Department: 401-Transportation Services Division: Project Number: CIP-00143
 Project Title: Skeet Club Road Widening, B Section
 Project Location: North High Point Project Contact: Mark McDonald Project Photo:

Description:

State-funded project. Widening of Skeet Club Road from Eastchester Drive to Johnson Street (B section). Project will include four lanes with intersection treatments, median, and sidewalks.

Justification:

Roadway and intersections currently overcapacity during most times of the day. Heavy peak hour traffic results in congestion and difficult access from side streets and driveways, especially on the east end near NC 68.

Project Summary Form

Requesting Department: 401-Public Services Division: Project Number: CIP-00209
 Project Title: Bridge Re-inspection/Repairs
 Project Location: General Project Contact: Chris Thompson Project Photo:

Description:

Funds are needed to address ongoing inspection and repairs.

Justification:

The re-inspection of bridges is required to be done every two years in accordance with the Highway Bridge Replacement Rehabilitation Laws. This program is done through a Municipal Agreement with the NCDOT and the financing is an 80/20 split with the City covering the 20%. Eighty percent (80%) of the funding comes from the Fed. Aide Hwy Bridge Repl and Rehabilitation Program. The dollars appropriated in the opposite years of the re-inspection will be used to do the repairs that are needed and documented in the reports from the re-inspection.

Project Summary Form

Requesting Department: 401-Public Services Division: Project Number: CIP-00829
 Project Title: Centennial Bridge (Decking)
 Project Location: South of Kivett/Bus. 85 Project Contact: **Project Photo:**

Description:

This project provides for the rehabilitation for the current concrete deck on the Centennial Bridge over Oak Hollow Lake. The current bridge deck has exposed reinforcement steel.

Justification:

Current bridge deck is in poor condition with exposed reinforcement steel. The NCDOT issued a Prompt Action Notice for this bridge deck. Though the 2010 NCDOT Bridge Inspections rated this bridge at a 85.6 (out of 100), the deck was rated very low and the exposed reinforcement was the reason for the Prompt Action Notice.

Project Summary Form

Requesting Department: 401-Fire Division: Project Number: CIP-01521
 Project Title: Fire Vehicle Repl - Reserve
 Project Location: General Public Project Contact: JONATHAN OLMEDO Project Photo:

Description: To set aside funds to build a reserve to establish a cash source for funding Fire replacement vehicles.

Justification: Due to the significant cost to acquire Fire apparatus, these projects are often pushed back each year. This arrangement will allow the City to set aside the savings from paying off prior Fire debt service to begin to work towards cash funding Fire vehicles replacement schedule.

Project Summary Form

Requesting Department: 401-Public Services Division: Project Number: CIP-03017
 Project Title: East Lexington Ave - Culvert
 Project Location: East of Kivett/College Towards Jamestown Project Contact: CHRIS THOMPSON Project Photo:

Description:

The following project request is as a result of a road widening and improvement project by Transportation. We have been asked to fund this upgrade for the culvert on E Lexington Ave as we wish to improve to the widened state, not the original two lane portion.

Justification:

An agreement has already been reached by City Management, City Transportation and NCDOT. Per Mark McDonald a Municipal Agreement is being executed.

Project Summary Form

Requesting Department: 401-Library Division: Project Number: CIP-00840
 Project Title: Heritage Point Project
 Project Location: General Public Project Contact: MARY SIZEMORE Project Photo:

Description:	Property acquisition, demolition of structures assessments, environmental surveys, parking lot construction and moving existing structures to improve the properties at 1615 and 1613 McGuinn St.	
Justification:	This project will allow the Museum to increase the services it offers to the citizens of High Point, to expand their current holdings and allow them to be a better repository for the History of High Point as a whole. Increased parking area will allow for better accessibility to the Museum. Moving the Little Red House to the campus will allow for better utilization of the space for programming and additional event center for rental. Adding the tobacco barn will allow a more vivid interpretation of High Point life from an earlier era.

Project Summary Form

Requesting Department: 401-Fire Division: Project Number: CIP-00044
 Project Title: Mobile Breathing Air Unit Repl. (refill truck)
 Project Location: General Project Contact: Barry Tilley Project Photo:

Description:

Purchase a mobile air unit to provide an on-scene supply of breathing air for self contained breathing apparatus, electrical lighting and power.

Justification:

The current mobile air unit is a 1988 Chevy. Finding parts is a challenge. Parts are also hard to find for breathing air compressor on the truck. This truck is used on an emergency scenes and training scenes to fill SCBA for firefighters to perform their job. The truck also needs to be replaced to meet new standards of the fire service. This will help assure that safe and reliable breathing air for firefighters and water rescue personnel.

Notes:

The department's apparatus maintenance supervisor has determined the need for replacement of this unit.

City of High Point
Capital Improvement Program 2014-2018

401350 401-Cap Projs-Fire

Project Summary Form

Requesting Department: 401-Fire Division: Project Number: CIP-00111
 Project Title: Engine #1
 Project Location: Downtown/Center City Project Contact: Barry Tilley **Project Photo:**

Description:

Purchase one replacement fire engine to provide fire pumper protection to the response area around Fire Station #1. This fire engine will replace the existing Engine currently being used by Station #1.

Justification:

Engine #1 is a 1998 American La France. It has over 115,000 miles and the station responds to approximately 1400 calls annually. The truck is costing a lot to repair and keep in operation as a front line pumper. This truck can be used for a reserve apparatus when front line apparatus is being serviced or repaired.

401350 401-Cap Projs-Fire

Project Summary Form

Requesting Department: 401-Fire Division: Project Number: CIP-00172
 Project Title: Engine #9
 Project Location: East High Point Project Contact: Barry Tilley Project Photo:

Description:

Purchase one fire engine to provide fire pumper protection to the response area around Fire Station #9. This fire engine will replace the existing fire engine currently being used by Station #9.

Justification:

The current engine being utilized by Station #9 is scheduled to change its designation to a reserve engine as its age and milage in excess of 112,000 miles necessitates the need for replacement as a front line unit. This will help assure that safe and reliable equipment is available for fire department personnel entering hostile environment as well as the providing reliable customer service. The acquisition of this new fire engine will also help maintain the current fire insurance rating.

City of High Point
Capital Improvement Program 2014-2018

401470 401-Cap Projs-Theatre

Project Summary Form

Requesting Department: 401-Theatre Division: Project Number: CIP-00084
 Project Title: Motorization - Overstage Electrics/Rigging
 Project Location: Central High Point Project Contact: DAVID BRIGGS Project Photo:

Description:

The theatre has 31 manually operated, balanced linesets overstage.
 This project would modify the rigging system by automating the linesets.
 This would result in increased safety and efficiency of operation.

Justification:

Two of the most common theater-related hazards are out-of-balance linesets and counterweight-loading accidents. Either of these situations can result in substantial facility damage and/or injury and death to technicians. Safer equipment movement and greater capacity of linesets for more elaborate lighting designs. Faster setup and teardown of lighting – counterweight loading would be eliminated. Save labor costs due to eliminating the need for stage crew to load and unload counterweight.

PROJECTED STATUS As of June 30, 2013:	Project Type: Improvements	Project Dates	Dept Priority: 1

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00035
 Project Title: Water Storage Tank Maintenance
 Project Location: General Project Contact: Terry Houk Project Photo:

Description:

To inspect, sandblast and paint both the inside and outside of the (5) finished water storage tanks.

Justification:

The Lexington elevated tank was inspected on the inside in October 2001 by a professional tank service. It was recommended that the interior would need to be repaired. The outside is already showing some signs of rust. Other tanks will be inspected and maintained in subsequent years.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00036
 Project Title: Water Meter Changeout
 Project Location: General Project Contact: CHRIS THOMPSON Project Photo:

Description:	To change out 1,000 existing water meters a year that are a minimum of 10 years old.	
Justification:	After 10 years of use a water meter will start to lose its accuracy. This is a continuation of the program started on 2002/2003. This is one of those areas where making the expenditure will affect revenues in the future.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00144
 Project Title: Alum Sludge Removal
 Project Location: East High Point Project Contact: Terry Houk Project Photo:

Description: Alum Sludge will be removed from the two storage lagoons every 1-2 years by contract.

Justification: Funding was in the operating budget, but moved to the CIP to allow funds to roll-over for a larger contract. Funds need be set aside annually to accumulate prior to the removal processes. This project helps to assure that the water treatment process is not interrupted, and that all phases of treatment run efficiently as possible.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00655
 Project Title: Greenleaf Filter Enclosure
 Project Location: General Public Project Contact: **Project Photo:**

Description:

The greenleaf filters are located at the Ward Water Plant. The project will consist of designing and constructing an enclosure around the greenleaf filters which are presently outside.

Justification:

These filters have been online for about 11 years and we have had issues with them every winter since they were installed. The major problem is freezing. We have tried several different methods in order to solve this problem without success. The State has also highly recommended for years that they be enclosed due to birds and geese flying over them frequently with the fear of dropping getting in the filters. We respectfully request that these be covered for operational and health concerns.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-02781
 Project Title: Ward Water Plant Bulk Tank Replacements
 Project Location: General Public Project Contact: **Project Photo:**

Description:

The following project will take place at the Frank L. Ward Water Filtration Plant site located off of Kivett Drive, High Point

Justification:

The Ward Plant has (3) 10,000 gallon Sodium Hypochlorite (liquid bleach) storage tanks. These tanks have a 10 year life and they are almost 15 years old. We have already had one of the tanks to fail and had to have it repaired with only a one year warranty. These tanks are a critical part of our disinfection process. The Ward Plant also has a 6,000 gallon fluoride storage tank that also needs to be replaced. It is the original tank and is about 28 years old. It has also had to be repaired and is deteriorating to the point that the fluoride is seeping through the walls of the tank.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00073
 Project Title: Westside Treatment Pit Upgrade - Phase 3
 Project Location: West High Point Project Contact: Terry Houk Project Photo:

Description:

Construction for upgrading and expanding the Westside WWTP.

Justification:

State regulations will be imposed on phosphorous in 2004 that are four times more stringent than the current limit. The plant is also near 90% of its design capacity for flow. Much of the existing plant is deteriorated and equipment is failing.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00137
 Project Title: Demolition of Basins at Kearns
 Project Location: Central High Point Project Contact: Chris Thompson Project Photo:

Description:

The existing abandoned concrete basins at the Kearns Plant are extremely deteriorated to the point of becoming dangerous. The building structure can still be utilized as a pumping station and storage facility. The building walls could be re-faced to improve the appearance of the site as the traveling public passes by on Kivett.

Justification:

Eliminate the potential liability associated with abandoned open empty concrete structures. Improve appearance of site and gateway to the City along Kivett Drive.

 Project Title: Bethel Drive Lift Station
 Project Location: North High Point Project Contact: Terry Houk Project Photo:

Description:	Install a replacement pump station and controls. 2.23.2010 - changed funding source from pay-go to revenue bonds. Jeff Moore is aware and asked us to inform Eric O for his reference.	
Justification:	The pump station is old and obsolete. Project will assure continuous dependable sanitary service for customers.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00259
 Project Title: Ward Plant Electrical Rehab.
 Project Location: General Public Project Contact: TERRY HOUK Project Photo:

Description:

Ward Water Plant is located on the Eastside of High Point on Kivett Dr.
 Revenue Bonds not sold yet.

Justification:

The Ward Plant was built in the mid-80s and at that time the standards were different than they are today. The transformers and large motors that are currently being used are of an odd voltage, which according to our electric department are no longer in use and would be almost impossible to replace without being specially made. The lead time for a replacement would be at least 6 months. This project would encompass replacing a switch gear, 2 transformers and 9 large motors with all associated conduit.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00687
 Project Title: Incinerator Emission Improvements - EPA Required
 Project Location: General Public Project Contact: **Project Photo:**

Description:

Modification and installation of pollution control equipment to the incineration process to meet the new proposed EPA Air Quality Standards. This shall include carbon adsorber, secondary heat exchanger, blower and scrubber modifications, building modification, CEMs, stack replacement, and sludge hauling.

Justification:

Under the proposed new EPA Air Quality Standards 40CFR Part 60, SSI MACT, the control of 11 emission pollutants shall entail modification to existing equipment and additional scrubbing equipment for the existing incinerator for pollution compliance; therefore, expanding the footprint of the existing process. Per EPA analysis, the control of these pollutants shall reduce the risk of the pollutants from entering the air; thus, enhancing the quality of the air, resulting in health care cost savings for the population.

Project Summary Form

Requesting Department: 421-Public Services Division: Project Number: CIP-00789
 Project Title: Ward Tank Replacement
 Project Location: Default CIP Location Project Contact: **Project Photo:**

Description:

Replacing the existing Ward Water tank that was built in 1930.
 Revenue Bonds not sold.

Justification:

This water tank is located at West Ward Ave and is used to maintain a fairly uniform pressure on the distribution center at all times. A recent evaluation of this tank found that the top of the structure is failing and in need of repair/replacement. The cost to repair warrants a total replacement.

Project Summary Form

Requesting Department: 631-Electric Operations Division: Project Number: CIP-00115
 Project Title: Conversion of Russell St. Subst to 100kv
 Project Location: Default CIP Location Project Contact: LAWRENCE HOPKINS Project Photo:

Description:

This project funds two new transformers and the necessary station equipment to convert Russell Substation from 69 kV to 100 kV.

Justification:

The majority of our substations operate at 100 kv, the voltage we receive at our delivery points. Three substations still remain on 69 kv. They require stepdown transformers to convert the 100 kv to 69 kv. We have two stepdown transformers. One is rated 100 MVA, the other 60 MVA. Our present 69 kv total load is 85 MW.

Project Summary Form

Requesting Department: 631-Electric Operations Division: Project Number: CIP-00255
 Project Title: Filter Substation Second Transformer
 Project Location: Default CIP Location Project Contact: LAWRENCE HOPKINS Project Photo:

Description:

Purchase and install a new LTC transformer for Filter Substation.

Justification:

Most of our substations are double ended, meaning that there are two transformers feeding the station. Two transformers significantly increases the reliability of the system by letting one of the two transformers be off line for maintenance, etc., during normal times. The second transformer also functions as a back up in the event of failure of the other transformer.

Project Summary Form

Requesting Department: 631-Electric Operations Division: Project Number: CIP-00325
 Project Title: Replacement Metalclad Switchgear
 Project Location: Default CIP Location Project Contact: LAWRENCE HOPKINS Project Photo:

Description:

Replace existing metalclad switchgear in four substations.

Justification:

The existing switchgear has reached its useful life and it has become difficult to find replacement parts. This project installs new switchgear to replace gear installed in the 1970's.

Project Summary Form

Requesting Department: 641-Transportation Services Division: Project Number: CIP-02881
 Project Title: Hi tran Bus Fleet Replacement
 Project Location: General Public Project Contact: ANGELA WYNES Project Photo:

Description:

To replace 15 of Hi Tran's 17 bus fleet 2004 models. Will be eligible for federal and state replacements funds in 2016. Federal 80%; State 10%; City 10%.

Justification:

Buses being replaced because of cost associated with an aging fleet with high mileage. Replacement cost is estimated at \$500,000/bus = \$7.5M for the total fleet. Federal/State/City funding of 80%, 10%, 10% split. It is critical that the City having the local match in place by July 2016.

Project Summary Form

Requesting Department: 651-Transportation Services Division: Project Number: CIP-00542
 Project Title: Parking Facility Enhancements
 Project Location: Default CIP Location Project Contact: Project Photo:

Description:

Facility upgrades for the City's three parking decks. In addition to structural improvements, new gating, ticket dispensers, card readers, self-pay stations, and supporting hardware, software, and communication network are needed.

Justification:

Significant structural improvements have not been made to parking facilities since 2005-06. Our ticketing and payment system is more than 20 years old and has become difficult and costly to maintain.

Project Summary Form

Requesting Department: 661-Public Services Division: Project Number: CIP-00795
 Project Title: MRF Automation and Upgrade
 Project Location: Default CIP Location Project Contact: **Project Photo:**

Description:

This project will provide for the installation of sorting equipment and machinery at the MRF.

Justification:

The MRF is accepting more recycling material than any time in the past. Currently, all sorting is completed by employees sorting by hand. Modern MRF equipment can handle much more material, more efficiently, with fewer employees. By modernizing the plant, employees are not exposed to as many dangers, such as needles. In addition, no investments have been made in modernizing equipment at the MRF and processing ability has fallen behind.

Project Summary Form

Requesting Department: 661-Public Services Division: Project Number: CIP-00815
 Project Title: Kersey Valley Road Relocation
 Project Location: Default CIP Location Project Contact: Project Photo:

Description:

This project provide for the study phase of relocating Kersey Valley Road for the future Phase 6 of the landfill expansion.
 Budgeted in the Landfill Closure/Post Closure Reserve Fund - 861.

Justification:

The overall expansion plan for the landfill places Phase 6 over Kersey Valley Road, connecting Phases 1-3 and Phases 4-5. The estimated timeframe for this road relocation is approximately 2025 to 2030. However, transportation studies, planning, design, permitting, etc will need to begin in advance of this work. The road could actually be relocated in advance of the expansion to facilitate safer operations by closing the road earlier.

661749 661-Cap Projs-Landfill

Project Summary Form

Requesting Department: 661-Public Services Division: Project Number: CIP-01099
 Project Title: Kersey Valley Phase I -III Closure
 Project Location: General Public Project Contact: CHRIS THOMPSON Project Photo:

Description:

This part of the project will include surface preparation, installing drainage and erosion control measures. Once the closure is complete further measures will take place in the form of "post-closure" activities. (as outlined in the project titled post-closure (CIP-01102)). Budgeted in the Landfill Closure/Post Closure Reserve Fund - 861.

Justification:

The Kersey Valley Landfill phase III has reached the end of its useful life. As such, the task of closing the landfill will soon begin.

Notes:

GLOSSARY OF FREQUENTLY USED TERMS

-A-

Account Number - the accounting designation for revenue and expenditure line items. The account number consists of a two-digit fund number, a two-digit department number, a three-digit activity number, a three-digit sub-activity number, a two-digit object source code, and a four-digit line item object cost code.

Accrual Accounting - a basis of accounting in which revenues and expenses are recorded at the time they are incurred, instead of when cash is actually received or disbursed.

Activity - a level of budgeting, which identifies a particular program or service within a department. Contained within an activity budget may be one or more sub-activity budgets.

Adopted Budget - the official expenditure plan adopted by the City Council for a fiscal year.

Ad Valorem Taxes - commonly known as property taxes. For most governments, it is the single greatest revenue source. Taxes are levied at the stated tax rate for both real and personal property according to the valuation.

Appropriated Fund Balance - revenue appropriated from existing fund balance to help fund expenditures in a given fiscal year.

Appropriation - an authorization by the governing board to make expenditures and incur obligations for specific purposes.

Assessed Valuation - the total value established for real property and used as the basis for levying property taxes.

-B-

Balanced Budget - the situation that exists when total anticipated revenues are equal to total planned expenditures. The state of North Carolina requires a balanced budget.

Benchmarking - the identification of best-in-class performers; the comparison of local performance outputs and results with those of top performers; the analysis of practices that account for any performance gaps; and the development and implementation of strategies to adjust the gap in one's favor.

Benefits - mandated employee benefits and other programs such as health insurance, which benefit the employee and their family.

Bond - a written promise to pay a specified sum of money at a specified date in the future together with periodic interest at a specific rate.

Bond Anticipation Note - short-term, interest-bearing notes issued by the City in anticipation of bonds to be issued at a later date. The notes are retired from proceeds of the bond issue to which they are related.

Bond Referendum - an election in which voters pass or defeat a proposal by the City government to issue debt in the form of interest-bearing notes.

Budget - a comprehensive financial plan of operation for a specified period of time containing an estimate of proposed expenditures and the means of financing them. In the state of North Carolina it is mandated that a balanced budget be produced, i.e. revenue equals expense.

Budget Calendar - the schedule for completion of the various tasks involved in the preparation, submission, and adoption of the fiscal year annual operating budget for the City.

Budget Message - a formal letter of transmittal contained in the proposed budget document prepared by the City Manager and addressed to the governing board which contains the City Manager's views and recommendations on the City's operation for the coming fiscal year.

Budget Ordinance - the legal document approved by the governing board that establishes the spending authority for the City.

-C-

Capital Asset - facilities and equipment that are tangible assets having a significant value (\$500 or greater) and a useful life of one year or more.

Capital Improvement Program - a plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from long-term work programs. Capital expenditures of significant amounts of money involving major construction and acquisition are usually included in the capital improvement program (CIP).

Capital Outlay - budgeted expenditures of at least \$500 for tangible items with a useful life of at least one year.

Capital Project Fund - a fund used to account for expenditures for major construction and acquisition projects that are not accounted for in other funds and are anticipated to be completed in one year.

Capital Project Ordinance - authorizes a major capital expenditure and continues in effect for the life of the project. It is characteristic that the types of projects covered by a capital project ordinance span several years due to the scope of work being performed. The ordinance specifies the funding and line item expenditures for the project.

Capital Reserve Fund - a fund established for the purpose of receiving transfers of moneys from other funds (usually enterprise funds) in order to build fund balance for a specific future outlay of capital.

Cash Equivalents - highly liquid investments with maturities of three months or less when purchased to be cash or cash equivalents, or demand deposits.

Central Services Fund - a fund used to account for goods and services provided by one department to other departments on a cost reimbursement basis, such as print shop services or warehousing.

Community Development Block Grant Fund - used to account for revenues and expenses derived from the Community Development Block Grant entitlements to the City.

Contingency - an appropriation by fund used at the City Council's discretion to provide budget for unanticipated expenditures.

Core City Plan - A plan for guiding the development, redevelopment and revitalization of neighborhoods as outlined in the Core City Plan developed in 2006 and adopted by the City Council on February 8, 2007. The public-private partnership Plan's purpose is designed to define and improve the physical, economic and social fabric of the downtown and surrounding neighborhood, institutional, commercial, and industrial areas. The City contributes funding to the plan annually. The name was changed from Core City to "The City Project" in 2011.

-D-

Debt Service - Moneys required for payment of principal and interest and other associated expenses on outstanding bond debt.

Deferred Revenues - Revenues submitted to the City before the eligibility requirements are recorded and reported.

Department - a major operating budget area of the City, which includes overall management for an activity or group of related activities with possibly one or more sub-activities.

-E-

Effectiveness Measures - the level of satisfaction of the services being delivered or the extent to which pre-determined goals and objectives have been reached. Effectiveness indicators more accurately measure the quality of service output to know whether a program or service is accomplishing what was intended.

Efficiency Measures - the units of service produced (output) per amount of resources expended (input). Indicates how well a government is performing the things it is doing. This measure is a good indicator of how reasonable service costs are - the ratio of quantity of service provided to the cost, in dollars or labor.

ElectriCities - a not-for-profit government service organization representing cities, towns and universities that own electric distribution systems. Today, ElectriCities represents more than 90 members in North Carolina, South Carolina and Virginia.

Encumbrance - an obligation in the form of a purchase order or a contract, which is chargeable to an appropriation and for which a part of the appropriation is reserved. It becomes an expenditure when paid.

Enterprise Fund - a fund established to account for the operation of facilities and services that are entirely or predominantly financed through user charges. The City's enterprise funds are Water, Sewer, Electric, Mass Transit, Parking, Landfill Facilities, and Stormwater.

Equities - Assets less liabilities of a fund.

ERP – Enterprise Resource Planning - integrated financial and human resources solutions that help to streamline and improve public-sector business processes.

ERU – Equivalent Residential Units - a calculated methodology to determine the basis for determining the monthly stormwater utility fee to be charged to the customer. The ERU per customer is determined by dividing the total of square footage of impervious surface area on the customer's property by the square footage of one ERU (2,588). The result is multiplied by the dollar amount established by City Council

Expenditure - the amount paid for goods delivered and services rendered.

-F-

Fiduciary Fund - a fund used to account for assets held by the City in a trustee or agent capacity for other agencies or organizations.

Fiscal Year - a twelve-month period of time to which the annual budget applies. The City of High Point's fiscal year is from July 1 thru June 30.

Fixed Asset - tangible property owned by the City having a monetary value of \$500 or greater and a useful life of one year or more.

Fringe Benefits - funds budgeted for the City's contribution for employee benefits including retirement, health insurance, social security, and life insurance.

Fund - an independent accounting entity with a self-balancing set of accounts.

Fund Balance - the excess of a fund's assets and revenues over its liabilities, reserves, and expenditures at the close of the fiscal year.

Full Accrual - a method used in proprietary funds for recording the expenditure of funds in which revenues are recorded when they are earned and expenses are recorded when a liability is incurred.

Full-Time Positions - authorized positions with the exception of law enforcement and fire employees budgeted at 2080 hours per year

-G-

GAAP - (Generally Accepted Accounting Principles) accounting principles that are commonly used in preparing financial statements and generally accepted by the readers of those statements. The source of GAAP for state and local governments is the Governmental Accounting Standards Board.

General Capital Projects Fund - used to account for major capital expenditures (acquisition and construction) other than those financed by enterprise funds. These projects usually require one year or less for completion.

General Fund - used to account for the ordinary operations of the City, which are financed through taxes, other general revenues, and contributions, transfers, and reimbursements from other funds. Unless there is a legal accounting requirement, all activities are accounted for in the General Fund.

General Obligation Bonds - debt issued by the City that is backed by its taxing authority.

Goal - a broad statement of purpose or intent to achieve a desired state of affairs. A goal describes a desired effect on the community.

Governmental Funds –are segregations of financial resources. Expendable assets are assigned to the various governmental funds and current liabilities are assigned to the fund from which they are to be paid. The differences between governmental fund assets and liabilities, the fund equity is referred to as “Fund Balance.”

-I-

Infrastructure - the base or framework of a community that is necessary to support the orderly function of government and service delivery to communities. Examples include water and sewer (improvements to lines, treatment plants), streets, and stormwater project to name a few.

Input Measures - the amount of resources expended or consumed in the delivery of services.

Interest on Investments - revenue earned from investment of City funds with a third party.

Inter-fund Transfers - transfers of money between accounting funds as authorized by the City Council.

Intergovernmental Revenue - revenue received by the City from federal, state, and county agencies.

Intragovernmental Revenue - revenues generated by a City department for services provided to other City departments.

-L-

Lease-Purchase Agreement - a method of financing the purchase of a fixed asset, which allows the City to spread the cost over a specified period of time.

LED Lighting – (light-emitting diode) LEDs are more efficient, because LEDs produce more lumens per watt than other alternatives, and also because they can be tuned to the specific wavelengths. They can be used for traffic signals, light bulbs, lanterns, and streetlights to name a few.

LEED Certification – (Leadership in Energy and Environmental Design) provides independent, third-party verification that a building project is environmentally responsible, profitable and a healthy place to live. Green Building Rating System, developed by the U.S. Green Building Council (USGBC), provides a suite of standards for environmentally sustainable construction.

Licenses & Permits - revenue received by the City from individuals and corporations for the purpose of conducting business or performing certain activities.

Line Item - a unit of budgeted expense used to classify expenditures by item or category. A line item establishes the permissible level of expenditure for an item.

-M-

Miracle League - A non-profit organization in High Point called “The Miracle League of High Point” for the purposes of providing opportunities for children with disabilities to play Miracle League baseball on a specially designed field. The High Point field will be funded by private donations, with the land and grading for the site provided by the City of High Point.

Mission Statement - a clear statement of the purpose and goal(s) toward which a department directs their efforts. (The reason the department exists.)

Modified Accrual - a method for recording the receipt and expenditure of funds in which revenues are recorded when they become measurable and available and expenditures are recorded when the liability is incurred.

-N-

Non-Departmental - expenditures for purposes that are not related to a specific department.

-O-

Objective - a specific target for achievement, which represents an interim step, or progress toward a goal within a specified time span and which are measurable.

Ombudsman - A government official who investigates citizens' complaints against the government or its functionaries.

Operating Budget - the City's financial plan for its operation for the fiscal year that outlines the proposed expenditures and revenue estimates to finance the expenditures.

Operating Expenses - funds allocated for the day-to-day operation of the City's services. These expenses exclude capital outlay.

Ordinance - a legislative enactment by the City Council. It has the full force of law within the City if it is not in conflict with any higher law.

Outcome Measures - the social, economic or cultural conditions that the program seeks to influence and the actual results/impacts produced by the program or service.

Output/Workload/Activity Measures - the quantity of services provided.

-P-

Part-Time Positions - authorized positions with various work schedules of 1,750 hours per year or less.

Pay As You Go Funding - a method in which annual revenue appropriations are used for funding capital projects as opposed to the issuance of long-term debt. General Fund projects are usually funded by an appropriation from the General Fund consisting of primarily property tax revenues. Capital projects in proprietary funds are funded by the respective revenues in these funds.

Performance Measure - the quantity or level of service provided. Indicator or criterion against which users can assess the successful achievement of a service or program.

Performance Measurement - the systematic method in which city departments develop and monitor objectives that assess the outcome and effectiveness of a delivered service or program. Provides government a way of determining whether it is providing a quality service at a reasonable price. Must not be seen as a "score-keeping system", but as a decision-making tool.

Performance Objectives - the means used to accomplish a mission. Clear targets for specific action. More detailed than the mission statement; have shorter time frames; states quantity when possible; measurable over time and reasonably achievable.

Personal Property - includes tangible property not permanently affixed to real property. Examples include vehicles, boats, trailers, and equipment.

Personnel Services - salaries, wages, and fringe benefits.

Property Tax - an annual tax levied by the City Council on the value of real property to fund General Fund expenditures. The amount of revenue derived from the tax is calculated by taking the tax value of the real property, dividing it by 100, multiplying it times the tax rate, and then times the collection percent.

Proprietary Funds – funds that are used to account for a government's on-going organizations which are similar to those found in private businesses or private sector. These funds have their own set of revenue and expense accounts. Measurement focus is income, financial position and changes in financial position.

-R-

Real Property - land, buildings, and items permanently affixed to land or buildings.

Retained Earnings - an equity account reflecting the accumulated earnings of an enterprise fund or internal service fund.

Revaluation – defined as the re-appraisal or re-assessment of value. In the City of High Point budget document, "revaluations" describe the process county tax collectors use to update the values of taxable real property within the city limits as well as the county.

Revenue - income received by the City from various sources used to finance its operations.

Revenue Bonds - bonds whose principal and interest are payable exclusively from the earnings of an enterprise fund. Revenue bonds are payable from identified sources of revenue and do not permit the bondholders to compel taxation or legislative appropriation of funds not pledged for payment of debt service.

Revenue Neutral Property Tax Rate – defined by North Carolina General Statutes as the rate that is estimated to produce revenue for the next fiscal year to the revenue that would have been produced for the next fiscal year by the current property tax rate if no re-appraisal had occurred.

-S-

Special Appropriations - accounts used for outside agencies' funding, prior year workers' compensation and unemployment claims, and for expenditures not routinely appropriated in operating budgets.

Special Grants Fund - a fund established to account for revenues received from outside agencies or groups designated for expenditure on particular programs and projects. These programs and projects are usually non-recurring in nature and of short duration. Revenues received are from federal, state, and local sources.

Sub-Activity - a level of budgeting, which identifies a specific area of work necessary for performing a budgeted activity.

-T-

Tax Base - the total assessed valuation of real property within the city limits.

Tax Levy - the total amount of revenue to be raised from the property tax levied by the City Council in the annual budget ordinance.

Tax Rate - the amount of tax per \$100 of assessed valuation levied by the City Council.

TIP - Transportation Improvement Program for the N.C. State Department of Transportation.

Treasury Subsidies – Subsidies from the US Treasury will rebate a portion of the interest paid on taxable bonds as authorized by the American Recovery and Reinvestment Act of 2009 (ARRA).

-U-

User Charges - the payment of a fee for receipt of a service provided by the City.

-V-

Valuation - the tax value of real property as determined by the Guilford County tax assessors every eight years. The property valuation is multiplied by the tax rate per \$100 of valuation to arrive at the tax bill for a particular piece of taxable property.

- W –

Workforce Program - is a separate but supported strategic plan to implement recommended development strategies to assist the community's workforce as they compete for high-skilled jobs in the region. The idea to develop communication and training materials to support community education by a combination of government, business, education, and community leaders working together to assist community residents' short-term actions to improve workforce education, training, and preparedness.

ACCOUNTING UNIT DIRECTORY

Budgets, both revenue and expense are identified by a six-digit accounting unit number. The first three digits identify the fund for the accounting unit. Each division within a department is assigned an accounting unit.

A listing of accounting units is shown in department order as they appear in the budget document.
